Ashton Scholastic The Three Billy Goats Gruff:

The Three Billy-goats Gruff Alasdair Blair, E. B. Chance, Susan Blair, Libby Handy, Don Holdaway, 1983 *Play and Learn Maths* Judy Tertini, 1992 Book for use by parents and teachers to help children under five understand mathematics Contains activities which do not need much preparation or equipment and covers the concepts of time measurement mass temperature money and counting Includes resource lists of books and toys

Arts in Education Edgar Norman Wright, Rosemary Elaine Young, Ontario. Ministry of Education, 1986 Two interventions were studied in this project a drama program presented by three visiting drama consultants in five classes and a daily story reading period presented by the teacher in three classes and by the co investigator in another three classes The interventions lasted for 12 weeks Subjects were 325 first grade pupils from 21 classrooms in 9 inner city schools The purpose of the study was to see whether these interventions had any academic consequences The assessment procedures selected provided hard data that nevertheless reflected the humanistic thrust of the interventions The report suggests that the daily use of stories or the use of drama besides having intrinsic value contributes to academic achievement This increase was relatively modest and demonstrable when there was a direct link between the form of assessment and the existence of similar program elements Moreover it seems that there was a greater chance for demonstrable benefits in academic achievement with story telling than drama and that the chances for demonstrable benefits are greater with more inner city children BZ

More Than Guided Reading Cathy Mere, 2005 Is there too much emphasis on guided reading in primary classrooms It s a question that many educators like kindergarten teacher and literacy coach Cathy Mere are starting to ask Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts but Cathy found that she needed to find other ways to help students gain independence While maintaining guided reading as an important piece of their reading program teachers need to offer students opportunities during the day to develop as readers to learn to choose books to find favorite genres and authors and to talk about their reading In *More Than Guided Reading* Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing children at the heart of literacy learning not only providing more time for students to discover their reading lives but also shaping instruction to meet the needs of the diverse learners in her classroom By changing the structure of the day Cathy found she was better able to adjust the support she was providing students allowing time for whole class focus lessons conferences and opportunities to share ideas as well as reading from self selected texts using the strategies skills and understandings acquired in reader s workshop The focus lesson is the centerpiece of the workshop It is often tied to a read aloud and connected to learning from the previous day helping to build skills extend thinking and develop independence over time This thoroughly practical text offers numerous sample lessons questions for conferences and ideas for revamping guided reading groups It will help teachers tweak the mix of instructional components in their reading workshops and provoke school wide conversations about the place
