Asi Assessment Manual:

ECDEU assessment manual for psychopharmacology William Guy, 1976 **Resource Manual**, 1993 *Guide to the Addiction Severity Index*, 1985 **From the Source** Marjorie Rosenweig, Rachel Greenberg, Karen Lyon, Susan Kouner, 1998-04 Increased attention has been given in recent years to the effects of perinatal substance abuse on infants and children. The demand for programs targeting these populations has spiraled. Based on the experiences of 147 prevention and treatment projects, this guide was prepared as a resource for practitioners and program administrators seeking to establish and strengthen similar programs by providing practical knowledge on common implementation issues. Combining theory with practice, the guide provides common sense advice, practical suggestions, and experience-based strategies in a user-friendly format. *Publications Catalog* National Institute on Drug Abuse, 2000 *Therapy Manuals for Drug Addiction* Alan J. Budney, 1998 Presents clear, helpful information to aid drug treatment practitioners in providing the best possible care that science has to offer. *Guide to Assessment Scales in Schizophrenia* Richard Keefe, 2013-05-13 This book provides a wealth of assessment instruments from the world's experts to help clinicians gather the most important information from their patients. Benuto, Nicholas S. Thaler, Brian D. Leany, 2014-06-26 To effectively serve minority clients, clinicians require a double understanding of both evidence-based practice and the cultures involved. This particularly holds true when working with Asian Americans, a diverse and growing population. The *Guide to Psychological Assessment with Asians* synthesizes real-world challenges, empirical findings, clinical knowledge, and common sense advice to create a comprehensive framework for practice. This informed resource is geared toward evaluation of first-generation Asian Americans and recent immigrants across assessment methods: self-report measures, projective tests, settings, school, forensic, and classes of disorders: eating, substance, sexual. While the *Guide* details cross-cultural considerations for working with Chinese, Japanese, Korean, and Indian American clients, best practices are also included for assessing members of less populous groups without underestimating, overstating, or stereotyping the role of ethnicity in the findings. In addition, contributors discuss diversity of presentation within groups and identify ways that language may present obstacles to accurate evaluation. Among the areas covered in this up-to-date reference: Structured and semi-structured clinical interviews; Assessment of acculturation, enculturation, and culture; IQ testing; Personality disorders; Cognitive decline and dementia; Mood disorders and suicidality; Neuropsychological assessment of children, adolescents, and adults; Culture-bound syndromes. Designed for practitioners new to working with Asian clients as well as those familiar with the population, the *Guide to Psychological Assessment with Asians* is exceedingly useful to neuropsychologists, clinical psychologists, health psychologists, and clinical social workers. *Handbook of Evidence-Based Substance Abuse Treatment in Criminal Justice Settings* Carl Leukefeld, Thomas P.
