Flip the Funnel Joseph Jaffe, 2010-01-26 Why customer retention is the new acquisition If there s anything the recession of 2009 taught us it was the importance of investing in our customers but when was this any different So says Joseph Jaffe bestselling author of Life After the 30 Second Spot and Join the Conversation and a leading expert and thought leader on new media and social media In most businesses it costs roughly five to ten times more to acquire a new customer than it does to retain an existing one and yet companies continue to disproportionately spend their budgets into the wrong end of the funnel the mass media or awareness side What we haven t paid enough attention to is the right end of the funnel the word of mouth component that essentially acts as a multiplier for future business The economic impact of an active engaged and loyal customer is tremendous And the same is true of the opposite scenario namely the impact of angry customers and negative word of mouth or referrals It is this thinking that Jaffe has channeled to challenge marketers to flip the funnel once and for
