20march Of Dimes Report Card:

Coming to Term Debbie McCulliss, 2022-05-26 Debbie McCulliss sadly learned the many tragedies of pregnancy the hard way. Although she ultimately raised two healthy children, creating a family was more challenging than she ever imagined. Unfortunately, despite technological advances today, many pregnancies continue to end in heartbreak rather than joy. In a poignant medical narrative, McCulliss chronicles her journey through grief and joy as she worked as a registered nurse in a neonatal ICU and discovered the many things that can go wrong during pregnancy, all while bravely dealing with her own miscarriages and high-risk pregnancies. With the intent of educating, supporting, and inspiring women who have had difficulty conceiving, carrying a baby to term, or who need a dose of hope, McCulliss shares personal anecdotes that reveal how her journey led her to create a pioneering program to care for women struggling with high-risk pregnancy. Included are journal exercises and appendices that offer helpful tips and resources. *Coming to Term* is a creative expression of grief and joy that offers personal essays and practical advice from a former NICU nurse who battled to create her own family and help others dealing with infertility and high-risk pregnancies. Born too soon: decade of action on preterm birth World Health

Organization, 2023-05-09 Every year 1 in 10 babies are born too soon. Preterm birth is the leading cause of under-5 child deaths and accounts for over one third of all newborn deaths. A preterm baby's chances of survival are starkly different based on where they are born: newborns in sub-Saharan Africa and Southern Asia are 10 times more likely to die in their first month than newborns in high-income countries. In 2012, an impressive global coalition of partners launched Born Too Soon: The Global Action Report on Preterm Birth, setting a pathway for intensified advocacy and action on maternal and newborn health. Today, there is much progress to celebrate, especially in the care of preterm babies. However, rates of preterm birth have barely shifted, and the burden of preterm birth remains huge, impacting babies, families, communities, and whole societies through a staggering loss of human capital. At this juncture, 10 years since the original report, partners from over 60 organizations and 40 countries have come together again to develop Born Too Soon: A Decade of Change for Preterm Birth. This report looks back at the progress and challenges of the past decade and grapples with contemporary challenges such as conflict, climate change, COVID-19, and the cost of living crisis. Born Too Soon elevates the voices of survivors and affected families and puts a strong emphasis on upholding their rights and providing respectful and family-centered care. The report identifies priority investments and solutions needed at scale to accelerate action. Country examples demonstrate that progress is possible. *Pregnant at Work* Elise Andaya, 2024-03-05 A compelling analysis of time care and social inequality told

through the lens of pregnant low-wage service workers and their efforts to access safety-net prenatal care in New York City. *Kotch's Maternal and Child Health* Russell S. Kirby, 2021-03-15 The 4th edition of *Maternal and Child Health* will continue to offer a comprehensive, trusted introduction to the field of Maternal and Child Health. However, this new edition, with a new author team and new MCH expert contributors, will present the traditional MCH topics in a modern context that

addresses race ethnicity an expanded family focus including fathers and a broadened approach that will appeal not only to public health professionals but also to health professionals outside public health practice **Best Practices in High-Risk Pregnancy, An Issue of Obstetrics and Gynecology Clinics** Lynn Simpson,2015-06-14 The Guests Editors have assembled expert authors to present clinical reviews on the current knowledge and best practices for high risk pregnancies Authors are writing on Genetics update on prenatal screening and diagnosis Screening for congenital heart disease What you need to know when managing twins Short cervix dilemma preterm labor approach to decreasing complications of prematurity Optimizing outcomes for the growth restricted fetus Preeclampsia short and long term implications pregnancy risk associated with obesity prevention of first cesarean delivery and diagnosis and management of placenta accreta

Young Black Women and Health Inequities in the United States Suezanne Tangerose Orr,Caroline Orr Bueno,2024-02-01 This important book not only highlights the high rates of morbidity and mortality among young black women in the US but also provides a lens through which the reasons behind such health disparities can be understood The book outlines the main direct causes of illness and premature death among young black women from physical illnesses such as heart disease cancer and stroke to psychological conditions such as depression But throughout each chapter the reasons behind these issues are discussed including exposure to racial discrimination exposure to psychosocial stressors poverty lack of access to health care unemployment and lack of education A concluding chapter asks what mechanisms can address the stark health inequalities faced by young black women in the US so that rates of morbidity and mortality can be reduced A timely and insightful account of an enduring issue within American society this book will interest researchers and students across public health race and gender studies and the sociology of health as well as policy makers **Preterm Birth, An Issue of Clinics in Perinatology, E-Book** David K.
