

Which Car Brands Make the Best Vehicles?

We ranked 32 brands based on the Overall Scores of their models, which include road tests, reliability, satisfaction, and safety

By Jeff S. Bernstein and Anna Lam
February 16, 2022

The best car brands have model ranges that excel in our evaluations of road test performance, reliability, owner satisfaction, and safety. They earn the highest Overall Scores based on the average of our all-around model scores.

BMW, Subaru, Volvo, and Honda consistently lead in the rankings by delivering in these areas, from their base models to their highest vehicles. BMW earned the top spot this year thanks to especially strong road-test performance and solid owner-satisfaction results.

Subaru leads the luxury segment this year, helped by positive driver-satisfaction reliability. Subaru placed first in the strength-of-reliability and safety-scores category. The Chrysler brand dropped a dozen spots, dragged down by the well-known average reliability of the halfhearted midrange. Despite solid line quality, the Chrysler and Dodge's significant year-over-year decline.

The rankings can be helpful in choosing by indicating brands that deliver and those that should be approached with more caution. The brands that lead in the rankings are those that tend to fall short in our road tests and safety reliability. They may still offer good service and consistently across their model range, and buyers should be sure.

To be included in the brand ranking, a brand has to have at least two models ranked in a brand like, Renault, Infiniti, Acura, and Honda aren't included in our rankings this year for the first time.

How We Rank the Car Brands

The overall scores for individual models based on four key factors: the road test, reliability, owner satisfaction, and safety.

For the road-test scores, we use subjective ratings from 10 tests and evaluations.

Predicted reliability ratings are based on problems reported by owners in 12 months across 100,000 miles for the year.

Owner satisfaction predictions are based on whether 100,000 miles or less and we use the first 100 miles of the year, which is again 10 years for the year.

Safety includes an assessment of any available crash-test results and safety ratings assigned to vehicles that were involved in safety-performance studies.

Score reflects the average of a brand's 10 model scores across the categories. As a bonus, the top 10 percent of reliability and the lowest reliability, according to the NHTSA.
