

TWF NZ TECHNICAL GUIDANCE NOTE TGN 01: Engineered Scaffold (CPEng)

1.0 Introduction

This guidance note is provided to assist anyone involved in the commissioning, specification or determination of scaffolds, to readily identify whether a proposed scaffold requires CPEng design or verification.

2.0 Requirements of the WorkSafe Scaffolding in New Zealand Good Practice Guideline

All scaffolding must be in accordance with the WorkSafe Scaffolding in New Zealand Good Practice Guideline. This section summarizes the requirements of that WorkSafe GPG in respect to what is considered by the regulator to require assessment by a CPEng.

Scaffold systems and components must also comply with the AS/NZS1576 suite of standards (or equivalent) and a CPEng will be expected to be competent in the use of these standards.

Table 2.1 – Scaffold description

A description of the scaffold requirements and details (loading, height, stability, foundations, application and components) will determine whether a CPEng design or check is necessary.
