20winter Weather Report:

Weather Forecasting and Weather Types on the North Pacific Slope United States. Weather Bureau, Bemer S. Pague, S. M. Blandford, 1897 **Daily Bulletin of Weather Reports**, 1878 **Air Pollution** Jonathan T. Bachman, 1999-05

This report is concerned with the benefits and costs of installing sulfur dioxide controls at the Navajo Generating Station which was thought to produce sulfur dioxide emissions that contributed to impaired visibility at the Grand Canyon. The report determines the effect on emissions reductions and the associated costs that resulted from the negotiated agreement used by EPA in making its decision compared to its initial proposal. It identifies the visibility improvement EPA estimated would result from the emissions controls and the means by which these improvements were determined and determines how contingent valuation was used to estimate the monetary value of visibility improvement.
