Scoring the Free Response Section The following guide explains typical free response scoring criteria

Score	Explanation of Score
9	The thesis is extremely well developed and is supported with concrete evidence all aspects of the question have been addressed thoroughly discussions presented are balanced
8	The thesis is defined and supported the evidence provided is very organized the essay may be slightly imbalanced with one strong argument and one weak argument and or discuss one topic more thoroughly than the next sporadic factual errors may appear
7	A basic argument or thesis is provided evidence given supports the argument or thesis but does not clearly connect with the argument or thesis only the formal facets of the question are dealt with and informal facets are not adequately covered not all aspects of the question are discussed
6	The thesis is not organized and is not referred to in the essay the essay is little more than a recounting of facts and events the essay may be overloaded with data only one facet of the questions may be discussed numerous factual errors may appear
5	The thesis is weak evidence provided in support does not apply to the thesis factual errors are apparent
4	The thesis is very weak little or no factual evidence is provided to support the thesis irrelevant and inaccurate information appears
3	An attempt is made to answer the question but the support given is insignificant and the coverage of topics is incomplete
2	The question is not answered with any significance
1	0 The question is not answered with any significance

Free Response Part II Comparative only

Score	Explanation of Score
5	The thesis is extremely well developed and is supported with concrete evidence all aspects of the question have been addressed thoroughly discussions are presented in a balanced way
4	The thesis is defined and supported the evidence provided is very organized the essay may be slightly imbalanced with one strong argument and one weak argument likewise one topic may be more thoroughly explored than another may be marred by sporadic factual errors
3	A basic argument or thesis is presented evidence given supports the argument or thesis but does not clearly connect with

the argument or thesis only the formal facets of the question are dealt with and informal facets are not adequately covered
 not all aspects of the question are discussed 2 The thesis is weak evidence provided in support does not apply to the thesis
 factual errors are apparent 1 An attempt is made to answer the question but the support given is insignificant and the
 coverage of topics is incomplete 0 The question is not answered with any significance It would be extremely helpful to find
 someone who is willing to score your essay your teachers or anyone who is familiar with the test material If you do ask the
 person to assign each of your U S and Comparative Part I essays a score of 0 to 9 For your Comparative Part II essays use the
 0 to 5 scale If you must grade your own essays try to be objective In addition you may want to give your essays three
 different grades For instance if you feel you did well try giving the essay a score of 5 6 or 7 to represent the various scores
 you may receive By underestimating what your score may be you are more likely to receive a better score on the actual exam
 Use the following formulae to determine your raw score for the Free Response section United States Exam Free Response

 qualified 3 qualified 2 possibly qualified and 1 no recommendation Scores that Earn College Credit and or Advanced
 Placement Most colleges grant students who earn a 3 or above college credit and or advanced placement You should check
 with your school guidance office about specific college requirements Studying for Your AP Examination It is never too early
 to start studying The earlier you begin the more time you will have to sharpen your skills Do not procrastinate Cramming is
 not an effective way to study since it does not allow you the time needed to learn the test material It is very important for you
 to choose the time and place for studying that works best for you Some students may set aside a certain number of hours
 every morning to study while others may choose to study at night before going to sleep Other students may study during the
 day while waiting on a line or even while eating lunch Only you can determine when and where your study time will be most
 effective But be consistent and use your time wisely Work out a study routine and stick to it When you take the practice exam
 s try to make your testing conditions as much like the actual test as possible Turn your television and radio off and sit down
 at a quiet table free from distraction Make sure to time yourself As you complete the practice test s score your test s and
 thoroughly review the explanations to the questions you answered incorrectly but do not review too much during any one

sitting Concentrate on one problem area at a time by reviewing the question and explanation and by studying our review s until you are confident that you completely understand the material Since you will be allowed to write in your test booklet during the actual exam you may want to write in the margins and spaces of this book when practicing However do not make miscellaneous notes on your answer sheet Mark your answers clearly and make sure the answer you have chosen corresponds to the question you are answering Keep track of your scores By doing so you will be able to gauge your progress and discover general weaknesses in particular sections You should carefully study the reviews that cover the topics causing you difficulty as this will build your skills in those areas To get the most out of your studying time we recommend that you follow the Study Schedule which corresponds to the exam you are taking It details how you can best budget your time If you are taking both exams do not try to study for each at the same time Try alternating days by studying for the United States exam one day and the Comparative exam the next Test Taking Tips Although you may be unfamiliar with tests such as the Advanced Placement exams there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties Listed below are ways to help yourself become accustomed to the AP exam some of which may also be applied to other standardized tests Become comfortable with the format of the AP Examination in Government and Politics that you are taking When you are practicing to take the exam s simulate the conditions under which you will be taking the actual test s You should practice under the same time constraints as well Stay calm and pace yourself After simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual test much more confidently Know the directions and format for each section of the exam Familiarizing yourself with the directions and format of the different test sections will not only save you time but will also ensure that you are familiar enough with the AP exam to avoid nervousness and the mistakes caused by being nervous Work on the easier questions first If you find yourself working too long on one question make a mark next to it in your test booklet and continue After you have answered all of the questions that you can go back to the ones you have skipped Use the process of elimination when you are unsure of an answer If you can eliminate three of the answer choices you have given yourself a fifty fifty chance of getting the item correct since there will only be two choices left from which to make a guess If you cannot eliminate at least three of the answer choices you may choose not to guess as you will be penalized one quarter of a point for every incorrect answer Questions not answered will not be counted Be sure that you are marking your answer in the circle that corresponds to the number of the question in the test booklet Since the multiple choice section is graded by machine marking the wrong answer will throw off your score

Learning and Understanding National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Committee on Programs for Advanced Study of Mathematics and Science in American High Schools, 2002-08-06 This book takes a fresh look at programs for advanced studies for high school students in the United States with a particular focus on the Advanced Placement and the International Baccalaureate programs and asks how

advanced studies can be significantly improved in general. It also examines two of the core issues surrounding these programs: they can have a profound impact on other components of the education system, and participation in the programs has become key to admission at selective institutions of higher education. By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.
