Space Technologies, Materials and Structures B. Paton, 2003-04-10 Investigations in space have been conducted in both manned and unmanned space vehicles Space Technologies Materials and Structures explains the development of hardware and instrumentation designed to operate in the severe conditions of space For the operation and repair of such vehicles engineers and scientists must consider a broad range of practical issues such as the construction and mounting of extended large structures discussed here using the Mir space station as a case study Another consideration is the manufacture of permanent joins by welding and brazing as well as the application of various coatings by thermal evaporation Astrophysicists engineers and applied mathematicians will benefit from this volume [Research on the Nature of Mineral-Forming Solutions](#) N. P. Yermakov, 2013-10-22 Research on the Nature of Mineral Forming Solutions is the first book on the subject of fluid inclusions This book contains observational data and studies of mineral forming solutions done in the Soviet Union The description and natural classification of inclusion in minerals according to their composition and state are discussed Gaseous liquefied and solidified inclusions that are found in minerals and their significance are considered important in determining the presence and availability of the mineral For example any earlier or contemporaneous minerals that are found only in their host crystals can be determined by analyzing the presence of solid inclusions The origin and genetic classifications of liquid and gaseous inclusions being both abundant in hypogene ore deposits are explained Other less common methods in the study of inclusions besides homogenization of inclusions by heating under the microscope are forwarded The authors believe that exact measurements of the homogenization temperature are possible and therefore can serve as a precise indicator in understanding the process of formation of individual crystals and hydrothermal deposits Other studies of the All Union Research Institute of Piezo optical Mineral Raw Materials are also discussed This collection of monographs will prove invaluable to mineralogists geologists and research chemists studying minerals and ore deposits
