The mark scheme provided here suggests ideas for tutors to use when marking the work completed by students on the 11+ Creative Writing Baseline Assessment Papers. Tutors can use these ideas as an initial starting point but should also refer to guidance set by the examination board that is relevant to each of their 11+ students' chosen grammar school(s).

John Keats Walter Jackson Bate,2009-07-01 The life of Keats provides a unique opportunity for the study of literary greatness and of what permits or encourages its development Its interest is deeply human and moral in the most capacious sense of the words In this authoritative biography the first full length life of Keats in almost forty years the man and the poet are portrayed with rare insight and sympathy In spite of a scarcity of factual data for his early years the materials for Keats s life are nevertheless unusually full Since most of his early poetry has survived his artistic development can be observed more closely than is possible with most writers and there are times during the period of his greatest creativity when his personal as well as his artistic life can be followed week by week The development of Keats s poetic craftsmanship proceeds simultaneously with the steady growth of qualities of mind and character Mr Bate has been concerned to show the organic relationship between the poet s art and his larger more broadly humane development Keats s great personal appeal his spontaneity vigor playfulness and affection are movingly recreated at the same time his valiant attempt to solve the problem faced by all modern poets when they attempt to achieve originality and amplitude in the presence of their great artistic heritage is perceptively presented In discussing this matter Mr Bate says The pressure of this anxiety and the variety of reactions to it constitute one of the great unexplored factors in the history of the arts since 1750 And in no major poet near the beginning of the modern era is this problem met more directly than it is in Keats The way in which Keats was somehow able after the age of twenty two to confront this dilemma and to transcend it has fascinated every major poet who has used the English language since Keats s death and also every major critic since the Victorian era Mr Bate has availed himself of all new biographical materials published and unpublished and has used them selectively and without ostentation concentrating on the things that were meaningful to Keats Similarly his discussions of the poetry are not buried beneath the controversies of previous critics He approaches the poems freshly and directly showing their relation to Keats s experience and emotions to premises and values already explored in the biographical narrative The result is a book of many dimensions not a restricted critical or biographical study but a fully integrated whole

Romantic Writing and the Empire of Signs Karen Fang,2010-02-02 Nineteenth century periodicals frequently compared themselves to the imperial powers then dissecting the globe and this interest in imperialism can be seen in the exotic motifs that

surfaced in works by such late Romantic authors as John Keats Charles Lamb James Hogg Letitia Landon and Lord Byron Karen Fang explores the collaboration of these authors with periodical magazines to show how an interdependent relationship between these visual themes and rhetorical style enabled these authors to model their writing on the imperial project Fang argues that in the decades after Waterloo late Romantic authors used imperial culture to capitalize on the contemporary explosion of periodical magazines This proliferation of post Napoleonic writing often referencing exotic locales both revises longstanding notions about literary orientalism and reveals a remarkable synthesis of Romantic idealism with contemporary cultural materialism that heretofore has not been explored Indeed in interlocking case studies that span the reach of British conquest ranging from Greece China and Egypt to Italy and Tahiti Fang challenges a major convention of periodical publication While periodicals are usually thought to be defined by time this account of the geographic attention exerted by late Romantic authors shows them to be equally concerned with space With its exploration of magazines and imperialism as a context for Romantic writing culture and aesthetics this book will appeal not only to scholars of book history and reading cultures but also to those of nineteenth century British writing and history The Complete Works of John
