Data to help you understand treatment outcomes

This Report Card provides information on how South Australia's prostate cancer outcomes compare to other states. It has been using real life data from 8,500 men on the South Prostate Cancer Clinical Collaborative (SA-PCCC) diagnosed with prostate cancer between 2008 to 2016. It is for men with advanced prostate cancer and not prostate cancer.

If you've been diagnosed with prostate cancer, there are various approaches available to which treatment is best on several factors - the aggressiveness and not of the cancer as well as presence of other diseases.
