Border Jumping and Migration Control in Southern Africa Francis Musoni,2020-04-07 With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe the border between these Southern African countries has become one of the busiest inland ports of entry in the world As border crossers wait for clearance crime violence and illegal entries have become rampant Francis Musoni observes that border jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this including searches for better paying jobs and access to food and clothing at affordable prices Musoni sets these actions into a framework of illegality He

considers how countries have failed to secure their borders why passports are denied to travelers and how border jumping has become a phenomenon with a long history especially in Africa Musoni emphasizes cross border travelers active participation in the making of this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk *Making Aid Agencies Work* Terry Gibson,2019-07-01 Terry Gibson combines large scale industry analysis with attention to the lives and worlds of the people the aid industry aims to serve and he demonstrates how to overcome barriers between the two worlds and free flows of learning resources and even political influences that might lead to better outcomes **International Multiparty Mediation and Conflict Management** Sinisa Vukovic,2015-10-05 This volume aims to provide a detailed explanation of the effects of cooperation and coordination on international multiparty mediation in conflicts Contemporary scholarship stresses that the crucial ingredients for a successful multiparty mediation are consistency in interests and cooperation and coordination between mediators This book seeks to supplement that understanding by investigating how much the consistency of interests and cooperation and coordination affect the overall process and what happens to the mediation process when mediating parties do not share the same idea and interest in finding a common solution At the same time it explores the obstacles in achieving coordination and coherence between various mediators in such an environment and how to surmount the problems that multiple mediators face when operating without a common script in attempting to mediate a negotiated settlement The study investigates three distinct mechanisms both on the systemic and contextual level that have the potential to deter defection from a potential member of the multiparty mediation coalition geo political shifts changes in the conflict dynamics and mediators ability to bargain for a cooperative relationship As the number of states and international actors that are involved in mediation increases a careful assessment is necessary not only of their relative institutional strengths and weaknesses but also of how to promote complementary efforts and how to synchronize the whole process when one actor is transferring the responsibilities for mediation to others This book will be of much interest to students of mediation conflict management war and conflict studies security studies and IR The Open Access version of this book available at <https://www.routledge.com/International-Multiparty-Mediation-and-Conflict-Management-Challenges-of-Vukovic/p/book/9781138087897> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
