Postwar America, 1945–1960

Lesson 2 *The Affluent Society*

Review Questions: Identifying Supporting Details

DIRECTIONS: Read each main idea. Use your textbook to supply the details that support or explain each main idea.

A. Main Idea: The 1950s was a decade of prosperity, with people moving to the suburbs, buying new products, and working in offices.

- Detail:** Americans produced an abundance of goods and services because of New techniques and technology.
- Detail:** Many Americans moved to the suburbs to avoid the crime and congestion of city neighborhoods.
- Detail:** From 1945 to 1961, the the birthrate exploded. Some contributing factors of the baby boom were: GI benefits encouraged the growth and popular celebrated large families.

B. Main Idea: American scientists broke new ground in the areas of electronics, manufacturing, and medicine.

- Detail:** In electronics, the development of the transistor made radios smaller and portable; the development of the computer launched a revolution, and the development of the jet made airline travel available to many.
- Detail:** The development of powerful antibiotics and vaccines made infections much more treatable.
- Detail:** Scientist Salk developed an injectable vaccine to prevent polio. Later, the the Sabin vaccine became the common method of prevention.

C. Main Idea: As television became popular, other forms of entertainment had to adapt in order to survive.

- Detail:** By 1957, nearly 80% percent percent of families had at least one television. Popular formats included comedy, variety shows, and action programs.
- Detail:** The Automobiles saved the radio industry as commuters listened in transit.

Answer Key To Section 8 2 In History

Frank E. McLaughlin

Answer Key To Section 8 2 In History :

Nonunion Employee Representation Bruce E. Kaufman, Daphne Gottlieb Taras, 2016-07-08 Examines the history contemporary practice and policy issues of non union employee representation in the USA and Canada The text encompasses many organizational devices that are organized for the purposes of representing employees on a range of production quality and employment issues *PG Textbook of Pediatrics* Piyush Gupta, PSN Menon, Siddarth Ramji, Rakesh Lodha, 2015-08-31 Postgraduate Textbook of Pediatrics is a comprehensive guide to paediatrics The textbook is comprised of three volumes split into ten parts with over 600 chapters and contributions from over 50 section editors and 725 authors covering all paediatric disorders descriptions of diseases and their management Includes nearly 1500 images and illustrations in full colour incorporating information on modern imaging techniques for neurological disorders in children This is an ideal resource for postgraduate students to gain a firm grounding in and retain and improve their knowledge of all areas of paediatric medicine

Introduction to Medical-Surgical Nursing Adrienne Dill Linton, PhD, RN, FAAN, 2015-02-06 The leading medical surgical text for LPN LVN students Linton's Introduction to Medical Surgical Nursing 6th Edition offers just the right level of

information to equip today's students to effectively care for adults and older adults. Covering both medical surgical and psychiatric mental health conditions and disorders, this comprehensive text addresses the LPN/LVN's role in a variety of care settings including acute care and long-term care, with a special emphasis on assignment and supervision responsibilities. It also emphasizes culturally competent care and holistic nursing while thoroughly covering all relevant NCLEX-PN test plan content. No other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student.

Foundational units on basic concepts related to the health care system, care settings, the nursing process, leadership, nutrition, the older adult, growth and nutrition, legal/ethical considerations, evidence-based nursing care, and many more essential topics avoid repetition later in the text and create a foundation to build your understanding of disorders by body system. Safety alerts are highlighted throughout the text with a Safety Considerations icon. A separate unit on psychiatric mental health nursing covers psychosocial responses to illness, psychiatric disorders, and substance abuse, eliminating the need for a separate psychiatric mental health nursing text. Content related to the NCLEX-PN test plan is emphasized throughout the text, including health promotion, nutrition, legal/ethical issues, HIPAA, and prevention of medication medical errors. Separate chapters on common high-profile disorders including hypertension, diabetes, and shock provide an in-depth understanding for patient care. Focus on assignment and supervision helps you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel and makes sure they understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. UNIQUE! In-depth pharmacology coverage includes the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. A separate unit on gerontologic nursing provides comprehensive coverage of the care of the older adult and related disorders. No other LPN/LVN med/surg text offers as much coverage of this primary patient group. Diagnostic Tests and Procedures tables offer quick reference to MRI, CT, Doppler flow, lumbar puncture, tests for neurologic disorders, and much more. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Nutrition Considerations boxes are spotlighted at appropriate points throughout the text to emphasize the role that nutrition plays in disease and nursing care. Nursing care plans reinforce the nursing process and focus on critical thinking. Cultural Considerations boxes discuss the importance of providing culturally competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Get Ready for the NCLEX-PN Examination sections at the end of chapters include key points, review questions, and case studies that address the various NCLEX Client Needs categories. NEW! Continued emphasis on evidence-based practice and the most current research.

findings include specific examples of how scientific evidence can justify and support patient care NEW Updated nursing diagnoses all reflect the most current NANDA listings for NCLEX compliance Evidence, Answers, and Christian Faith
James F. Williams, 2002 Straightforward answers for the difficult questions families face about God faith and the Bible
