reasonable academic progress had a nervous breakdown after passing his finals His diagnosis of Schizophrenia would be a label he will now have to endure for the rest of his life After having a relapse Philip eventually found long term work Then at the age of 32 Philip went to Birmingham University where he gained a masters degree in Economic Development and Policy He then went on to study for a doctorate but ended up with the consolation prize of a Masters of Philosophy research degree Finally drawing on his skills as a support worker working with those diagnosed with mental health issues he applied to go on a social work course Philip is now a professional social worker working with adults with learning disabilities He is also happily married to Geraldine
