Life, the Universe, and Everything Ric Machuga,2011-01-01 Has modern science made philosophy obsolete Is the soul real Do we have a free will Why should we be moral Does God exist and if so why is there so much pain and suffering in the world What is the relation between faith and reason Ric Machuga takes a holistic approach to these questions No philosophical idea no matter how small can live alone Ideas always gain their force power and life from their surroundings their ecosystem The ecosystem of ideas defended in this book comes from the ancient Greek philosopher Aristotle and his medieval interpreter Thomas Aquinas The ongoing relevance of their philosophical thought to twenty first century issues is opened up in fascinating ways Life the Universe and Everything is the product of thirty years of teaching introductory courses in philosophy Assuming no prior background it only requires of readers an enquiring mind and a willingness to think carefully An ideal guide to the big questions we face

Transcendental Mathematics Mike Hockney,2015-06-16 Science is about the mundane visible world Religion is about the transcendent invisible world Atheists believe that science is the only way to explain the world Agnostics think it s the best way But is science actually a system of explanation at all or merely a good problem solving tool and method that achieves practical success in the observable world Isn t science like God in need of an explanation What is its ontological and epistemological basis What limitations does it have How does it define Truth Immanuel Kant via his philosophy of transcendental idealism attempted to explain science within a philosophical and even religious context This attempt ultimately failed but the project itself need not be abandoned This book shows via a detailed investigation of Kant s philosophy that the only way to make sense of science is via transcendental mathematics

Through the Lens of Faith Elizabeth Danna,2022-07-14 There are spiritual things all around us though some of them might not seem very spiritual at first glance For the Christian there are spiritual lessons to be drawn from everything around us and there are spiritual and practical questions that many Christians ask In these 120 devotional readings Elizabeth Danna draws from sources as diverse as Tolkien and Conan Doyle Star Trek and Shakespeare comic books and cop shows and science and nature and the occasional night at the movies She also draws from current events her own life including lessons learned from
