Implementing bilingual and plurilingual education programs has ushered in a transformative era for educators worldwide. These programs have redefined teaching practices and thrust diversity into the spotlight as a central concern. During this paradigm shift, the need to cater to diverse students has become paramount, particularly in monolingual European contexts where bilingual and plurilingual instruction is often perceived as a formidable challenge, especially for learners with special needs. *Inclusive Education in Bilingual and Plurilingual Programs* assembles a compendium of international theoretical and practical contributions shedding light on the intricate interplay between diversity and bilingual or plurilingual education. This book delves into the multifaceted realm of attention to diversity in education where the focus is on tailoring teaching methods to the specific needs of students encompassing differences in abilities, learning paces, and styles, which empowers students to acquire essential competencies and attain educational objectives at each stage of their academic journey. Secondly, it traverses the landscape of bilingual and plurilingual education which has emerged in response to the societal employment and economic demands for language proficiency beyond one's mother tongue. This book is essential reading for many educational stakeholders engaged in bilingual or plurilingual education. Teachers at every educational level along with teacher trainers at tertiary institutions will find valuable insights for tailoring their pedagogical approaches to the unique needs of their students.

Promoting Reflection on Language Learning Neil Curry, Phoebe Lyon, Jo Mynard, 2023-09-12. This book brings together a wide range of studies, practical applications, and reflective accounts written by academics working at a university in Japan to present a cohesive overview of their collaborative efforts to promote learner reflection within their institution. The book contributes to a shift in language education towards promoting learner responsibility and ownership of their learning through developing a deeper sense of awareness of and motivation for the learning process. It makes a convincing case for showing that not only is promoting reflection possible but it can also be effectively integrated into language learning activities with significant benefits to the learners. The chapters are highly practical for researchers and practitioners, with the research chapters containing instruments which make them ideal for replication studies. The text includes a wealth of practical tools and activities for practitioners who will be able to experience first hand how to facilitate student success and increase satisfaction.

The Questions of Jesus in John Douglas Charles Estes, 2012-10-19. Why do the New Testament gospels depict a Jesus who asks questions almost as often as he gives answers? In *The Questions of Jesus*, John Douglas Estes crafts a highly interdisciplinary theory of question asking based on insights from ancient rhetoric and modern erotetics, the study of interrogatives, in order to investigate the logical and rhetorical purposes of Jesus' questions in the Gospel of John. While a scholarly discussion about Jesus cares more for what he says and not what he asks, Estes argues a better understanding of the rhetorical and dialectical roles of questions in ancient narratives sheds a more accurate light on both John's narrative art and Jesus' message in the Fourth Gospel.

Handbook of Research on Writing Instruction: Practices for Equitable and Effective Teaching Hodges, Tracey S., 2022-05-27. Writing is a critical component for teaching children about advocacy and empowering student voice, as well as an essential tool for learning in many disciplines. Yet writing instruction in schools often focuses on traditional methods such as the composition of five-paragraph essays or the adherence to proper grammatical conventions. While these are two components of writing instruction and preparation in education, they only provide a small glimpse into the depth and breadth of writing. As such, writing instruction is increasingly complex and requires multiple perspectives and levels of skill among teachers. *The Handbook of Research on Writing Instruction: Practices for Equitable and Effective Teaching* serves as a comprehensive reference of issues related to writing instruction and leading research about perspectives, methods, and approaches for equitable and effective writing instruction. It includes practices beyond K-12, including best writing practices at the college level, as well as the development of future teachers. Providing unique coverage on culturally relevant writing, socio and racial linguistic justice, and urgent writing pedagogies, this major reference work is an indispensable resource for administrators and educators of both K-12 and higher education, pre-service teachers, teacher educators, libraries, government officials, researchers, and academicians.
