Community Participation in School Management Kazuro Shibuya, 2022-09-12 Nobody denies that trust in schools is key to success in generating any educational outcomes However trust is often eroded resulting in conflicts alienation and differentiation among school level stakeholders This book analyses

school based management SBM of education through the lens of relational trust in the context of Ghana revealing how community participation in school management leads to educational outcomes Conducting quantitative analysis of headteacher questionnaires from public basic schools and qualitative analysis of case study schools in the Akatsi South District of Ghana Shibuya offers critical insights into building sustainable relationships between individual households and geographical school communities He argues it is critical to highlight relational trust as an analytical tool to examine relationships between actors and factors in school management The research finds that trust in schools is a two way mechanism and the mutuality of expectations and obligations among stakeholders is essential if children s learning outcomes are to improve With its mixed methods approach this book will be a valuable resource for scholars in comparative education those in educational development and those interested in African contexts

Factors contributing to academic performance of students in a Junior High School Anthony Abaidoo, 2018-11-22 Bachelor Thesis from the year 2018 in the subject Pedagogy School System Educational and School Politics grade 5 GHA System University of Education Distance Learning course Post Graduate Diploma in Education language English abstract Students academic performance is a key feature in education This study was therefore conducted primarily to assess the factors contributing to improvement in academic performance of Junior High Students JHS in a Basic School which is in the Gomo East District in the Central Region of Ghana The mixed and descriptive research design was used and a sample size of 87 respondents 79 students and 8 teachers were selected through random sampling technique The findings revealed that the average academic performance 47 0% of the JHS students in the Basic School is weak and their performance in Mathematics average score of 31 48% and English Language average score of 39 99% is a fail It was noticed that student factors that contribute to an improvement in academic performance include regular studying self motivation punctuality and regular class attendance hard work and interest in a subject The teacher factors were completion of syllabus use of TLM s frequent feedback to students and given students special attention Per the findings parent factors which was very key was parent showing concern in their children s academics and providing them their academic needs School factors that were significant included availability of text books and TLM s The study also found that parent level of education and gender has a positive relationship with academic performance but it s insignificant However age has a positive significant 5% significance level relationship with academic performance Based on findings the study recommends that there should be strict monitoring on teachers to vary their teaching methods to suit their needs of the students and also to provide the students with constant feedback on their academic performance Again the students should be motivated and orientated to take ownership of their studies by having regular studies and attending school during school days
