

Did you know? General Practice is the only part of the **NHS**...

...whose very nature is as deeply embedded into the UK psyche as the NHS itself

People say: "You need to see your GP"

People don't say: "You need to see your..." (well, anything else actually)

...that has significantly and consistently done more and more year on year with less and less

Sadly, no requisite increase in staff, funding or resources!

And sadly, government knows this and therefore has no incentive to increase funding...

Everything goes through your GP even when it might not always be appropriate

...that readily liaises with every other specialty

The front door of the NHS for most people...

...that remains the most accessible to the population

We know it's difficult to get in, but that's because it definitely is accessible!

13 million people know this every day

No other service comes anywhere near

...that provides truly holistic (whole person) care for all ages

...that looks after you from cradle to grave

Where long-serving GP staff grow, along with their patients and their families, over decades

NHS General Practice is the only service that is ALL of the above

There really is nothing like **NHS** General Practice!
