Scherpbier,Cees P.M. van der Vleuten,J.J. Rethans,A.F.W. van der Steeg,2012-12-06 About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht We received 525 abstracts for the conference divided in thematic poster sessions and platform presentations Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous Ottawa conferences During and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression Despite the large number of papers the editors have attempted to review and edit the papers as care fully as possible Occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers Although we felt that our editorial task was not quite finished we nevertheless decided to include these papers We thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education The editors want to thank Jocelyn Flippo Berger whose expertise with desk top publishing and perseverance was a great help

Objective Structured Clinical Examinations Sondra Zabar,Elizabeth Kachur,Kathleen Hanley,Colleen Gillespie,Adina Kalet,2025-07-25 Objective Structured Clinical Examinations OSCEs or other Standardized Patient Participant SP exercises are an important methodology for teaching and assessment in health professions education across disciplines and the continuum of training The first edition of Objective Structured Clinical Examinations offered a systematic approach for educators to get involved in the process of creating OSCEs and similar SP exercises The second edition uses the same successful format to make the OSCE process easy and reproducible and adds novel material and innovative best practices for OSCEs in every context The first edition of this book was based on the editors 20 years of experience producing OSCEs without a clinical skills center in empty classrooms or walk in clinics on weekends working with well trained SPs and using carefully designed clinical scenarios In the 10 years since they have engaged in multidisciplinary and inter professional collaborations and expanded their approach to designing and implementing successful performance based assessment both inside and outside of high tech simulation centers The original chapters 1 Introduction 2 10 step approach 3 Remediation and 4 Unannounced Standardized Patients have been updated and charts tables and best practices throughout these chapters are elaborated and expanded on This second edition also features an updated Foreword by Ronald Harden and Preface by Mack Lipkin Adina Kalet and Sandy Zabar along with eight new chapters in collaboration with other educators and researchers

covering topics such as analyzing OSCE notes for clinical reasoning OSCE data reporting and visualization scholarship and a research registry examples of performance based assessment in practice virtual OSCEs and telemedicine skills OSCEs for transitions OSCEs for teaching and SP programs This expanded edition will be useful to both novice and advanced educators and offers an important contribution to the health professions education literature
