Mindset Mathematics: Visualizing and Investigating Big Ideas, Grade 1 Jo Boaler, Jen Munson, Cathy Williams, 2021-01-27 Engage students in mathematics using growth mindset techniques The most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts In this volume you ll find a collection of low floor high ceiling tasks that will help you do just that by looking at the big ideas at the first grade level through visualization play and investigation During their work with tens of thousands of teachers authors Jo Boaler Jen Munson and Cathy Williams heard the same message that they want to incorporate more brain science into their math instruction but they need guidance in the techniques that work best to get across the concepts they needed to teach So the authors designed Mindset Mathematics around the principle of active student engagement with tasks that reflect the latest brain science on learning Open creative and visual math tasks have been shown to improve student test scores and more importantly change their

relationship with mathematics and start believing in their own potential The tasks in Mindset Mathematics reflect the lessons from brain science that There is no such thing as a math person anyone can learn mathematics to high levels Mistakes struggle and challenge are the most important times for brain growth Speed is unimportant in mathematics Mathematics is a visual and beautiful subject and our brains want to think visually about mathematics With engaging questions open ended tasks and four color visuals that will help kids get excited about mathematics Mindset Mathematics is organized around nine big ideas which emphasize the connections within the Common Core State Standards CCSS and can be used with any current curriculum

Learning Journals in the K-8 Classroom Marcia S. Popp, 2012-11-12 Learning Journals in the K 8 Classroom is the first comprehensive presentation of how to use academic journals effectively for elementary level instruction The text outlines the theoretical foundations for using learning journals and provides step by step suggestions for implementing them in every content area and at all levels of elementary instruction Learning journals provide resources and support for reading aloud independent reading mini lessons cooperative study individual research workshops and the portfolio system The type of interactive writing students do in learning journals helps them explore complex ideas in the content areas using their own strengths of analysis and response the journals then become resources for future learning group discussions individual conferences learning assessment reports and progress Four introductory chapters show teachers how to create their own journals introduce journals to students integrate them with cooperative study and use them for assessment Additional chapters focus on the individual curriculum areas of literature writing mathematics science and social studies The text includes sample entries from student journals at all grade levels and in every content area and appendices of annotated resources to support journaling and interviews with teachers who use journals in their classrooms

Family Dialogue Journals JoBeth Allen, Jennifer Beaty, Angela Dean, Joseph Jones, Stephanie Smith Mathews, Jen McCreight, Amber M. Simmons, Elyse Schwedler, 2014-04-15 This honest clearly written and accessible book shows how to use Family Dialogue Journals FDJs to increase and deepen learning across grade levels Written by K 12 teachers who have been implementing and studying the use of weekly journals for several years it shares what they have learned and why they have found FDJs to be an invaluable tool for forming effective partnerships with families Learn from first hand accounts how students write weekly about one big idea they have studied ask a family member a related question and then solicit their writing in the journal Through these journal entries they share their family knowledge with classmates while actively engaging with the curriculum In turn teachers extend the academic discussion by writing to each family and incorporating their funds of knowledge into classroom lessons writing about everything from the use of thermometers to life in Michoac n Mexico Family participation in the FDJs is remarkably high across ages ethnicities and economic realities This is an incredibly readable book that is highly useful for teachers teacher educators and university researchers interested in this powerful practice The descriptions of the classrooms are riveting and exemplify the kind of teaching we would all like to see
