Explicit Instruction Anita L. Archer, Charles A. Hughes, 2011-02-22 Explicit instruction is systematic direct engaging and success oriented and has been shown to promote achievement for all students This highly practical and accessible resource gives special and general education teachers the tools to implement explicit instruction in any grade level or content area The authors are leading experts who provide clear guidelines for identifying key concepts skills and routines to teach designing and delivering effective lessons and giving students opportunities to practice and master new material Sample lesson plans lively examples and reproducible checklists and teacher worksheets enhance the utility of the volume Purchasers can also download and

print the reproducible materials for repeated use Video clips demonstrating the approach in real classrooms are available at the authors website www.explicitinstruction.org See also related DVDs from Anita Archer Golden Principles of Explicit Instruction Active Participation Getting Them All Engaged Elementary Level and Active Participation Getting Them All Engaged Secondary Level

Teaching First Grade Min Hong, 2001-07 A mentor teacher shares insights strategies and lessons for teaching reading writing and math and laying the foundation for learning success

Mathematical Discourse that Breaks Barriers and Creates Space for Marginalized Learners, 2017-01-01 For the past decade reform efforts have placed importance on all students being able to participate in collaborative and productive mathematical discourse as an essential component for their learning of mathematics with deep conceptual understandings In this book our intent is to support mathematics education researchers teacher educators teachers and policy makers in providing positive solutions to the enduring challenge in mathematics education of enabling all participants including diverse students to equitably access mathematical discourse By diverse learners we mean learners who are minoritized in terms of gender disability or and social cultural ethnic racial or language backgrounds We aim to increase understanding about what it means to imagine design and engage with policy and practice which enhance opportunities for all students to participate in productive mathematical discourse In widening the lens across policy and practice settings we recognize the interplay between the many complex factors that influence student participation in mathematics The various chapters tell practical stories of equitable practices for diverse learners within a range of different contexts Different research perspectives empirical traditions and conceptual foci are presented in each chapter Various aspects of diversity are raised issues of concern are engaged with and at times conventional wisdom challenged as the authors provide insights as to how educators may address issues of equitable access of minoritized learners to the mathematical discourse within settings across early primary through to high school and situated in schools or in family and community settings

Teaching for Deep Comprehension Linda J. Dorn, Carla Soffos, 2005 Discusses reading comprehension and offers ways for teachers to develop it in their students exploring the cognitive and social aspects of comprehension while viewing it as an active process
