20 20 Is Not Enough:

Freedom Is Not Enough Patrick R. Query, 2024-11-01 Shows the surprising ways T S Eliot's work sheds light on and proves useful to the contemporary struggle for a freer and more just world How does literature from the past speak to the present What can we as readers committed to combatting oppression learn from figures whose writing we love but some of whose beliefs we may oppose Quite a lot according to Patrick R Query To make this case Query turns to a writer and critic as canonical as he is controversial T S Eliot Passionately argued and eminently readable *Freedom Is Not Enough* shows how Eliot makes a surprising yet vital ally in the struggle to fill the world with more freedom equality and human dignity Without ignoring or downplaying the bigotry and elitism that are ineluctable parts of Eliot's legacy Query argues that we need today what Eliot has to teach us about migration peace friendship radicalism anti fascism liberation resistance and hope Drawing on the full scope of Eliot's oeuvre from his most well known poetry and prose to newly available archival materials *Freedom Is Not Enough* demonstrates how to use Eliot and literature more broadly to confront the forces conspiring to turn our world into a waste land

The Role of Universities in the Europe 2020 Strategy Alessandra Ricciardelli, 2017-10-31 This book provides a unique study of the role of universities as organisation systems in the pursuit of the Europe 2020 strategy While Europe 2020 focuses on creating the basis for the advancement and cohesion of the EU's member states it also has an important role in influencing the development strategies for potential candidate states In this regard the book examines two new member states Slovenia and Croatia and two potential EU candidate states Serbia and Kosovo in the Western Balkans Based on these cases the author argues that the

operationalization of the Europe 2020 strategy depends to a great extent of the role and contribution of tertiary organisations such as educational institutions i e public and private universities and therefore requires the formulation of an economic development strategy at the national level that is capable of duly allocating the available financial resources The study suggests that the paradigm shift represented by Europe 2020 has helped to forge a new academic identity adding to the relevance of university organisations as fundamental agents for the promotion of economic development in addition it shows that an intensive learning process involving major structural changes is underway in the four countries discussed as well as many other EU member states
