Propaganda and Power in the Age of Globalization Simon Sherratt,2024-08-15 Following victory in World War II the US and Western Europe claimed to be the champions of the political ideals of democracy and freedom along with the economic ideal of free market capitalism Two decades into the

twenty first century these once noble ideals have been reduced to little more than myths myths that bear scant resemblance to the realities of the powerful political and economic forces that dominate the Western world This book examines the dangerous prospects we face as the societies built upon these myths begin to fragment and crumble In an open and accessible style this book argues that much of the confusion that currently plagues the West is due to the fact that its social economic and political systems are saturated by a little understood and rarely acknowledged system of propaganda This book seeks to clear away this propagandistic facade in order to reveal where power really lies in Western societies examining how this power functions and how it has corrupted the ideals of democracy freedom and capitalism to suit its own ends This volume will be of value to those interested in modern history and social and political history

at the Frontier** Thammarak Moenjak, 2024-09-27 With a foreword by Sethaput Suthiwartnarueput Governor of the Bank of Thailand Central Banking at the Frontier Creating a Digital Financial Landscape comprehensively explores the current digital dynamic era providing insights into the debates that define the evolving financial landscape End-to-End Strategy Execution Charles F. Bowman, William M. Ulrich, 2025-12-10 Despite technological and methodological advancements strategy execution failure remains alarmingly common Most projects fail outright or face significant challenges a statistic that has remained consistent for more than two decades While 80% of business leaders believe their companies excel at crafting strategy only 44% believe their organizations can achieve their strategic goals Nine out of ten leaders admit their execution failures have resulted in missed market opportunities These initiatives that fell short of expectations and ROI have wasted hundreds of billions of dollars Organizations continue this cycle of failure by repeatedly investing in new methodologies third party software systems integrators or silver bullet technologies expecting different results This suggests a fundamental abdication of ownership and responsibility for effective strategy execution Too many organizations fall into the trap of blind loyalty to specific methodologies sometimes abandoning proven practices and even strategic planning itself While various methodologies offer valuable elements leadership must maintain intellectual oversight rather than delegating accountability to third parties with limited stake in long term success End to End Strategy Execution From Inception Through Solution Deployment presents a framework for change to break this cycle of failure This framework is effective because it is methodology agnostic but not methodology illiterate This means it incorporates valuable elements from various approaches while maintaining a cohesive structure that connects strategy formulation to solution deployment This end to end strategy execution framework provides an actionable roadmap covering Strategy formulation Impact assessment Business and IT architecture design Initiative scoping and prioritization Design driven solution deployment Unlike previous frameworks claiming to be end to end this approach incorporates the rigor and integration capabilities needed to deliver on its promise aligning best practices and technologies to streamline every action from strategy to implementation Because the

framework addresses every aspect of strategy execution this book is a must read for everyone involved in strategy formulation analysis design and deployment It enables all strategic stakeholders and contributors to understand the scope and extent of their responsibilities as well as the tasks required to deliver any strategic solution on time and within budget
