Dual Language Education: Teaching and Leading in Two Languages David E. DeMatthews, Elena Izquierdo, 2019-05-13. This book provides a comprehensive and interdisciplinary examination of dual language education for Latinx or English language learners (ELLs) in the United States, with a particular focus on the state of Texas and the U.S.-Mexico border. The book is broken into three parts: Part I examines how Latinx or ELLs have been historically underserved in public schools and how this has contributed to numerous educational inequities; Part II examines bilingualism, biliteracy, and dual language education as an effective model for addressing the inequities identified in Part I; Part III examines research on dual language education in a large urban school district, a high-performing elementary school that serves a high proportion of ELLs along the Texas-Mexico border, and best practices for principals and teachers. This volume explores the potential and realities of dual language education from a historical and social justice lens. Most importantly, the book shows how successful programs and schools need to address and align many related aspects in order to best serve emergent bilingual Latinx, as from preparing teachers and administrators to understanding assessment and the impacts of financial inequities on bilingual learners. Peter Sayer, The Ohio State University, USA. **Journal of the Senate, State of Florida** Florida. Legislature. Senate, 2017. *Teaching Mathematics Using Popular Culture* Elana Reiser, 2015-11-09. Mathematics teachers often struggle to motivate their students. One way to cultivate and maintain student interest is for teachers to incorporate popular media into their methodology. Organized on the subject strands of the Common Core, this book explores math concepts featured in contemporary films and television shows and offers numerous examples high school math teachers can use to design lessons using pop culture references. Outlines for lessons are provided along with background stories and historical references.
