Toy Stories Tanya Jones, 2017-04-11 Toys those celebrated childhood cohorts and lead actors in children s imaginative play have a fantastic history of heroism in fiction From teddy bears that guard sleeping babies to plastic soldiers and cowboys who lay siege to wooden block castles toys are often the heroes of the stories children inspire authors to tell In this collection of new essays scholars from a great range of disciplines examine fictional toys as protectors of the children they love as heroes of their own stories and as champions for the greater good in the writings of A A Milne Hans Christian Andersen William Joyce John Lasseter and many others

Environmental Ethics Bob Jickling, Heila Lotz-Sisitka, Lausanne Olvitt, Rob O'Donoghue, Ingrid Schudel, Dylan McGarry, Blair Niblett, 2021-12-07 This well constructed and highly original sourcebook integrates educational materials for teaching environmental ethics with theoretical reflections The book is set to contribute immensely to its aim of taking ethics out of philosophy departments and putting it into the streets into villages and on the Earth to make ethics an everyday activity not something left to experts and specialists Context based activities are presented in almost every chapter While it acknowledges foundational theories in environmental ethics and the work that they continue to do it wholeheartedly embraces a growing body of literature that emphasises contextual process oriented and place based approaches to ethical reflection deliberation and action It walks on the ground and isn t afraid to get a little dirty or to seek joy in earthly

relationships And it ultimately breaks with much Western academic tradition by framing ethics in a storied world thus making room to move beyond Euro American perspectives in environmental issues This work will be of interest to school teachers and other non formal and informal educators teacher educators college instructors university professors and other professionals who wish to bring environmental ethics to the forefront of their pedagogical practices **Attending** Warren Heiti,2021-07-15 Attending patient contemplation focused on a particular being is a central ethical activity that has not been recognized by any of the main moral systems in the European philosophical tradition That tradition has imagined that the moral agent is primarily a problem solver and world changer when what might be needed most is a witness Moral theory has been agonized by dualism motivation is analyzed into beliefs and desires descriptions of facts and dissatisfactions with them while action is represented as an effort to lessen dissatisfaction by altering the empirical world In Attending Warren Heiti traces an alternative genealogy of ethics drawing from the Platonism recovered by Simone Weil and developed in the work of Iris Murdoch John McDowell and Jan Zwicky According to Weil virtue is knowledge knowledge is embodied and the knower is nested in an ecosystem of relationships Instead of analyzing and solving theoretical problems Heiti aims to clarify the terrain by setting up objects of attention from more than one discipline including not only philosophy but also literature psychology film and visual art The traditional picture captures one important type of ethical activity faced with a moral problem one looks to a general rule to furnish the solution But not all problems conform to this model Heiti offers an alternative to see what is needed one attends to the particular being **Listening for the Heartbeat of Being** Brent Wood,Mark Dickinson,2015-11-01 How a multi talented artist and scholar turned voices of pre industrial poet thinkers into texts relevant for today s world and tomorrow s Canadian Primal Mark Dickinson,2021-02-18 Over the past few decades a group of writers we might call the Thinking and Singing poets have stood at the forefront of poetry in Canada These five poets Dennis Lee Don McKay Robert Bringhurst Jan Zwicky and Tim Lilburn are major voices in an era of ecological devastation and spiritual unease Their diverse questioning work suggests new ways to confront some of the most pressing issues of our time In vibrant prose Mark Dickinson explores the relationship between the lives of these poets and their writing examining their intersecting careers and friendships and the ways they learned from and challenged one another Canadian Primal uses an unconventional approach blending biography with literary analysis and drawing from meetings and correspondence with each poet over many years to trace the people and events that inspired the creation of important texts Dickinson tracks how each of the writers arrived at poetry as a way of being and at the heart of their poetics he finds both a musical intelligence and the crucial importance of the land Canadian Primal is literary biography reconceived as an adventure of the mind body and spirit Ebullient intelligent and eminently readable it reminds us that we can live on the earth in a different way true to the defining experiences of our lives surrounded by meaning and presence beyond our imagining **Stanley Cavell and the Potencies of the Voice** Adam Gonya,2019-04-04 Stanley Cavell was one of the most influential American philosophers

of the past several decades Yet because he is often read in connection with Wittgenstein there has been little consideration of his work against the background of the larger German philosophical tradition Stanley Cavell and the Potencies of the Voice brings Cavell into dialogue with Schopenhauer and Nietzsche on the question of how we make ourselves intelligible opening up a new way of looking at central themes in Cavell's philosophy **Once upon a Time in the West** Jan Zwicky, 2023-05-15 Western civilization is over So begins Jan Zwicky's trenchant exploration of the root of global cultural and ecological collapse a way of thinking that is also linked to some of the West's most noted achievements The Renaissance merged imperial enterprise with Islamic algebra and recently recovered Greek mathematics to precipitate mechanized industry and resource extraction these in turn made possible the growth of capitalism the military industrial complex and Big Technology Despite its self image as objective Zwicky argues the West's style of thought is not politically neutral but intensely anthropocentric It has led those who adopt it to regard the more than human world as nothing more than timber licences and drilling sites where value is not recognized unless it is monetized Oblivious to context and blind to big picture thinking it analyzes mechanizes digitizes and systematizes while rejecting empathy and compassion as distorting influences Lyric comprehension in Zwicky's view offers an alternative to this way of thinking and she provides a wide range of examples Once upon a Time in the West documents how a narrow epistemological style has left Western thought blind to critical features of reality and how the terrifying consequences of that blinkered vision are now beginning to unfold
