Beer in the Middle Ages and the Renaissance Richard W. Unger,2013-05-22 The beer of today brewed from malted grain and hops manufactured by large and often multinational corporations frequently associated with young adults sports and drunkenness is largely the result of scientific and industrial developments of the nineteenth century Modern beer however has little in common with the drink that carried that name through the Middle Ages and Renaissance Looking at a time when beer was often a nutritional necessity was sometimes used as medicine could be flavored with everything from the bark of fir trees to

thyme and fresh eggs and was consumed by men women and children alike Beer in the Middle Ages and the Renaissance presents an extraordinarily detailed history of the business art and governance of brewing During the medieval and early modern periods beer was as much a daily necessity as a source of inebriation and amusement It was the beverage of choice of urban populations that lacked access to secure sources of potable water a commodity of economic as well as social importance a safe drink for daily consumption that was less expensive than wine and a major source of tax revenue for the state In Beer in the Middle Ages and the Renaissance Richard W Unger has written an encompassing study of beer as both a product and an economic force in Europe Drawing from archives in the Low Countries and England to assemble an impressively complete history Unger describes the transformation of the industry from small scale production that was a basic part of housewifery to a highly regulated commercial enterprise dominated by the wealthy and overseen by government authorities Looking at the intersecting technological economic cultural and political changes that influenced the transformation of brewing over centuries he traces how improvements in technology and in the distribution of information combined to standardize quality showing how the process of urbanization created the concentrated markets essential for commercial production Weaving together the stories of prosperous businessmen skilled brewmasters and small producers this impressively researched overview of the social and cultural practices that surrounded the beer industry is rich in implication for the history of the period as a whole

Beer and Brewing in Medieval Culture and

Contemporary Medievalism John A. Geck,Rosemary O'Neill,Noelle Phillips,2022-06-25 Beer and Brewing in Medieval

Culture and Contemporary Medievalism is a cross cultural analysis of the role that alcohol consumption played in literature social and cultural history and gender roles in the Middle Ages The volume also seeks to correct or offer new insights into historical beer production By drawing on the expertise of scholars of history archaeology Old and Middle English Old Norse and Medieval and Early Modern literature the book shows how historical medieval beer and brewing has influenced nostalgic post medieval nationalism and romanticized visions of the medieval ale house seen in beer marketing today The essays describe alcohol consumption in the Middle Ages across much of Northern Europe engage with the various myths employed in modern craft beer advertising and beer production and examine how gender intersects with beer production and consumption The editors also raise certain critical questions about medievalisms which need to be interrogated particularly in light of the continued use of the Middle Ages for white supremacist and colonialist ideals The volume contributes to the study of the popular and historical understandings of the Middle Ages as well the issues of race and gender
