Prepared by the Protein Calorie Advisory Group of the United Nations System, it covers such specific aspects of infant and child nutrition as lactation, weaning, formula feeding, supplementary feeding, use of recommended mixes, care of food and utensils, and measurement of foods. Other topics include growth and development of the young child, major causes of disease and death in children from developing countries, the nutritional value of food, nutrient contributions of foodstuffs, food processing, and nutrition education. Two additional chapters describe the planning and implementation of an infant feeding program. **The British National Bibliography**, 1968
