middle and upper grade classroom success      **Historical Sources on Westward Expansion** Chet'la Sebree,2019-12-15  
Although British colonist William Bradford once called America a hideous and desolate wilderness that type of sentiment did not keep colonists and future Americans from pressing westward to discover new lands new riches and new perils Students will learn about famous and lesser known explorers who traversed the great expanse Through a variety of primary source documents readers will learn how the expansion affected not only the establishment of the country but international relationships and indigenous populations Students gain a fuller understanding of the costs and benefits of Manifest Destiny

**United States Educational, Scientific, and Cultural Motion Pictures and Filmstrips, Selected and Available for Use Abroad; Education Section** United States. Interdepartmental Committee on Visual and Auditory Materials for Distribution Abroad. Subcommittee on Catalog,1959      **The United States' Role in the World** Derek Miller,2018-12-15

No country grows or changes in isolation and the history of the United States demonstrates the interdependence of countries around the world The United States Role in the World explores how government policy and military intervention have influenced daily life economics culture and more The book analyzes major conflicts and policy changes from the earliest days of America until present day including the American Revolution World War I World War II the Cold War and the conflicts in Iraq and Afghanistan In doing so The United States Role in the World stimulates critical thinking about how foreign and domestic policy can change the trajectory of the nation      *Warriors of the West Coast, Plateau, and Basin Tribes* Chris McNab,2017-12-15

As explorers traders and settlers reached new areas of North America Native Americans way of life came under threat This volume gives a comprehensive look at the conflicts these tribes faced and the warriors who led them in battle The book includes maps full color photographs and engaging sidebars that paint a vivid portrait of Native American history      [A History of America in 100 Maps](#) Susan Schulten,2018-09-21

Throughout its history America has been defined through maps Whether made for military strategy or urban reform to encourage settlement or to investigate disease maps invest information with meaning by translating it into visual form They capture what people knew what they thought they knew what they hoped for and what they feared As such they offer unrivaled windows onto the past In this book Susan Schulten uses maps to explore five centuries of American history from the voyages of European discovery to the digital age With stunning visual clarity A History of America in 100 Maps showcases the power of cartography to illuminate and complicate our understanding of the past Gathered primarily from the British Library's incomparable archives and compiled into nine chronological chapters these one hundred full color maps range from the iconic to the unfamiliar Each is discussed in terms of its specific features as well as its larger historical significance in a way that conveys a fresh perspective on the past Some of these maps were made by established cartographers while others were made by unknown individuals such as Cherokee tribal leaders soldiers on the front and the first generation of girls to be formally educated Some were tools of statecraft and diplomacy and others were instruments of social reform or even advertising and entertainment But when

considered together they demonstrate the many ways that maps both reflect and influence historical change Audacious in scope and charming in execution this collection of one hundred full color maps offers an imaginative and visually engaging tour of American history that will show readers a new way of navigating their own worlds **The Mythic Mr. Lincoln** Jeff

O'Bryant,2021-09-24 Honest Abe The rail splitter The Great Emancipator Old Abe These are familiar monikers of Abraham Lincoln They describe a man who has influenced the lives of everyday people as well as notables like Leo Tolstoy Marilyn Monroe and Winston Churchill But there is also a multitude of fictional Lincolns almost as familiar as the original time traveler android monster hunter This book explores Lincoln s evolution from martyred president to cultural icon and the struggle between the Lincoln of history and his fictional progeny He has been Simpsonized by Matt Groening charmed by Shirley Temple and emulated by the Lone Ranger Devotees have attempted to clone him or to raise him from the dead Lincoln s image and memory have been invoked to fight communism mock a sitting president and sell products Lincoln has even been portrayed as the greatest example of goodness humanity has to offer In short Lincoln is the essential American myth *Disneyland and Culture* Kathy Merlock Jackson,Mark I. West,2011-08-31 The success of Disneyland as the world s

first permanent commercially viable theme park sparked the creation of a number of other parks throughout the world from Florida to Japan France and Hong Kong But the impact of Disneyland is not confined to the theme park arena These essays explore a far reaching ideology Among the topics are Disney s role in the creation of children s architecture Frontierland as an allegorical map of the American West the cultural invasion of France in Disneyland Paris the politics of nostalgia and hyperurbanity in the town of Celebration Florida Instructors considering this book for use in a course may request an examination copy here **British and American News Maps in the Early Cold War Period, 1945-1955** Jeffrey P.

Stone,2019-06-06 During the early years of the Cold War England and the United States both found themselves reassessing their relationship with their former ally the Soviet Union and the status of their own special relationship was far from certain As Jeffrey P Stone argues maps from British and American news journals from this period became a valuable tool for relating the new realities of the Cold War to millions of readers These maps were vehicles for political ideology revealing both obvious and subtle differences in how each country viewed global geopolitics at the onset of the Cold War Richly illustrated with news maps cartographic advertisements and cartoons from the era this book reveals the idiomatic political cultural and material differences contributing to these divergent cartographic visions of the Cold War world *History Films* University of Illinois (Urbana-Champaign campus). Visual Aids Service,1974 Reading, Thinking, and Writing About History

Chauncey Monte-Sano,Susan De La Paz,Mark Felton,2014-04-01 This practical guide presents six research tested historical investigations along with all corresponding teacher materials and tools that have improved the historical thinking and argumentative writing of academically diverse students Uncertain Climes Joseph Giacomelli,2023-04-05 Uncertain Climes looks to the late nineteenth century to reveal how climate anxiety was a crucial element in the emergence of American

modernity Even people who still refuse to accept the reality of human induced climate change would have to agree that the topic has become inescapable in the United States in recent decades But as Joseph Giacomelli shows in *Uncertain Climes* this is actually nothing new as far back as Gilded Age America climate uncertainty has infused major debates on economic growth and national development In this ambitious examination of late nineteenth century understandings of climate Giacomelli draws on the work of scientists foresters surveyors and settlers to demonstrate how central the subject was to the emergence of American modernity Amid constant concerns about volatile weather patterns and the use of natural resources nineteenth century Americans developed a multilayered discourse on climate and what it might mean for the nation s future Although climate science was still in its nascent stages during the Gilded Age fears and hopes about climate change animated the overarching political struggles of the time including expansion into the American West Giacomelli makes clear that uncertainty was the common theme linking concerns about human induced climate change with cultural worries about the sustainability of capitalist expansionism in an era remarkably similar to the United States unsettled present
