Text-Dependent Questions, Grades 6-12 Douglas Fisher, Nancy Frey, Heather Anderson, Marisol Thayre, 2014-09-02
Fisher Frey's answer to close and critical reading. Learn the best ways to use text-dependent questions as scaffolds during close reading and the big understandings they yield. But that's just for starters. Fisher and Frey also include illustrative video texts and questions, cross-curricular examples, and an online facilitator's guide, making the two volumes of TDQ a potent professional development tool across all of K-12. The genius of TDQ is the way Fisher and Frey break down the process into four cognitive pathways: What does the text say? How does the text work? What does the text mean? What does the text inspire you to do?

Literacy in the Disciplines Thomas DeVere Wolsey, Diane Lapp, 2024-09-12
This book gives all teachers in grades 5-12 practical strategies for building the unique literacy skills that students need for success in their respective subject areas. Drawing from interviews with leading educators and professionals in science, mathematics, history, the arts, and other disciplines, the authors explain what disciplinary literacy is and discuss ways to teach close reading of complex texts, discipline-specific argumentation skills, academic vocabulary, the use of multimodal tools, and graphic organizers, and more. User-friendly features include classroom materials, lesson plans, practice activities, and recommended online teaching videos.

with Confidence Alan Meyers, 2002-07
Writing with Confidence, a value-priced developmental writing worktext, provides essential instruction and practice in basic writing skills at the sentence and paragraph level. The first developmental text to incorporate high-interest, connected discourse subject matter in its exercises, Writing with Confidence retains and expands on this feature. Most chapters pursue a theme throughout the exercises: the dreams and premonitions surrounding the death of Abraham Lincoln, animal facts and oddities, the gustatory achievements of Diamond Jim Brady, the world's greatest eater, the voyage of the Kon-Tiki, and so on. The text's six-unit structure includes 30 short chapters on the writing process, paragraph organization and development, the shape of the essay, all the rhetorical modes, and all the sentence skills. The writing chapters

are fully process oriented showing the development of a paragraph in six steps from planning and outlining through drafting revising editing and proofreading Optional collaborative activities are provided in the margins of each chapter This focus on writing is balanced with equal attention to sentence skills not only for native speakers of English who need help but for non English dominant speakers as well ESL boxes provide help for students whose first language is not English as do the two final chapters of the book which address troublesome matters such as verb phrases word order articles and prepositions The reading writing connection throughout the book has been expanded with sixteen additional readings in the last unit of the book including several written by students And the popular Blueprints for Writing found in the rhetorical chapters have been carried into unit ending Blueprints for Success in which the most important concepts and practices are summarized in graphs and charts

Visible Learning for Literacy, Grades K-12 Douglas Fisher, Nancy Frey, John Hattie, 2016-03-22 Every student deserves a great teacher not by chance but by design Douglas Fisher Nancy Frey John Hattie What if someone slipped you a piece of paper listing the literacy practices that ensure students demonstrate more than a year s worth of learning for a year spent in school Would you keep the paper or throw it away We think you d keep it And that s precisely why acclaimed educators Douglas Fisher Nancy Frey and John Hattie wrote Visible Learning for Literacy They know teachers will want to apply Hattie s head turning synthesis of more than 15 years of research involving millions of students which he used to identify the instructional routines that have the biggest impact on student learning These practices are visible for teachers and students to see because their purpose has been made clear they are implemented at the right moment in a student s learning and their effect is tangible Yes the aha moments made visible by design With their trademark clarity and command of the research and dozens of classroom scenarios to make it all replicable these authors apply Hattie s research and show you How to use the right approach at the right time so that you can more intentionally design classroom experiences that hit the surface deep and transfer phases of learning and more expertly see when a student is ready to dive from surface to deep Which routines are most effective at specific phases of learning including word sorts concept mapping close reading annotating discussion formative assessment feedback collaborative learning reciprocal teaching and many more Why the 8 mind frames for teachers apply so well to curriculum planning and can inspire you to be a change agent in students lives and part of a faculty that embraces the idea that visible teaching is a continual evaluation of one s impact on student s learning Teachers it s time we embrace the evidence update our classrooms and impact student learning in wildly positive ways say Doug Nancy and John So let s see Visible Learning for Literacy for what it is the book that renews our teaching and reminds us of our influence just in time
