Mini Guide on Making Book Trailers Francis Zeppieri, 2025-08-02 A book trailer is a short visually engaging video that promotes a book much like a movie trailer promotes a film. The Chicago Manual of Style 18th edition 2025 Elliot Spencer, 2025-07-07 The Chicago Manual of Style CMOS is a classic sourcebook for authors, editors, and publishers spanning decades, presenting authoritative guidance in English language use and publishing guidelines. In September 2024, the University of Chicago Press released the 18th edition, the biggest overhaul in twenty years. This edition captures the evolving face of language and publishing, addressing current issues and using feedback from an eclectic constituency of practitioners.

Are you overwhelmed by evolving grammar rules, confused by citation updates, or struggling to keep your writing inclusive and professionally polished? In today's rapidly changing world of publishing, language and digital content creation, writers, editors, academics, and communicators are facing new challenges every day. From gender-neutral pronouns to artificial intelligence and digital-first publishing formats, traditional rules are shifting fast, and outdated style guides no longer meet modern demands.

The Chicago Manual of Style 18th Edition 2025 is the authoritative, cutting-edge solution for anyone who works with the written word. This landmark release completely overhauled for the first time in over two decades, responds directly to the pressing needs of today's writers and editors. Whether you're an author, academic, student, journalist, or publishing professional, this edition equips you with the essential tools to write clearly, cite accurately, and edit with precision and purpose.

What's New and Why It Matters: This edition introduces critical updates that reflect a more inclusive, digital, and globally connected writing landscape. For the first time, the singular "they" is fully endorsed in formal writing, offering respectful and grammatically sound solutions for gender-neutral language. Title capitalization rules have been modernized to standardize publishing conventions across media. Outdated requirements, like including cities in book citations, have been removed to streamline referencing in a digital-first world.

This guide doesn't just teach you how to follow rules; it helps you understand why the rules have evolved, empowering you to write with clarity, consistency, and authority in any context.

What You'll Gain from This Edition: Master the modern grammar and usage standards trusted by professionals around the world. Apply inclusive and accessible language with confidence. Navigate complex publishing processes from manuscript prep to final edits. Use AI and digital publishing tools ethically and effectively. Create accurate, up-to-date citations and bibliographies for books, journals, websites, and more. Save time with clear, concise guidance on punctuation, spelling, abbreviations, and formatting.

This is more than a style guide; it's your all-in-one reference for writing in a world that demands accuracy, adaptability, and inclusivity. Designed for real-world use, it covers everything from source citation and permissions to journal structure, parts of a book, and grammar rules that reflect how English is used.
