Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube, Bookstagram, and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices, bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible, this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media, and cultural studies, as well as teachers and professionals in the book and library industries.

Big Fiction
Dan Sinykin, 2023-10-24 Shortlisted 2024 SHARP Book History Book Prize Society for the History of Authorship Reading and Publishing In the late 1950s Random House editor Jason Epstein would talk jazz with Ralph Ellison or chat with Andy Warhol while pouring drinks in his office By the 1970s editors were poring over profit and loss statements The electronics company RCA bought Random House in 1965 and then other large corporations purchased other formerly independent publishers As multinational conglomerates consolidated the industry the business of literature and literature itself transformed Dan Sinykin explores how changes in the publishing industry have affected fiction literary form and what it means to be an author Giving

an inside look at the industry's daily routines, personal dramas, and institutional crises, he reveals how conglomeration has shaped what kinds of books and writers are published. Sinykin examines four different sectors of the publishing industry: mass market books by brand-name authors like Danielle Steel; trade publishers that encouraged genre elements in literary fiction; nonprofits such as Graywolf that aspired to protect literature from market pressures; and the distinctive niche of employee-owned W.W. Norton. He emphasizes how women and people of color navigated shifts in publishing, arguing that writers such as Toni Morrison allegorized their experiences in their fiction. *Big Fiction* features dazzling readings of a vast range of novelists, including E.L. Doctorow, Judith Krantz, Renata Adler, Stephen King, Joan Didion, Cormac McCarthy, Chuck Palahniuk, Patrick O'Brian, and Walter Mosley, as well as vivid portraits of industry figures. Written in gripping and lively prose, this deeply original book recasts the past six decades of American fiction. **The Reading Lives of Teens** Chin Ee

Loh, 2024-11-04 In these changing times of global flows of media and technologies and reports of declining reading enjoyment, researchers, policymakers, and educators need to engage anew with essential issues of what counts as reading, what kinds of reading matter, and how to support teen reading engagement in school and out of school settings. Bringing together contributions from well-known and emerging adolescent literacy researchers from different disciplinary perspectives, this edited collection consolidates contemporary research on teens' volitional print and digital reading, whether in school or out of school contexts. The first part of the book offers overviews of what teens are reading, followed by chapters on community support on reading and new ways of researching teen reading. With chapters from North America, Europe, Australia, Asia, and the Middle East, the collection will offer multifaceted and complex insights into what, how, and why teens read in different contexts. Reflection questions at the end of each chapter encourage readers to consider how the research can be applied in their own research, policy, and practice contexts. This book will be of interest to researchers, policymakers, and educators who are invested in supporting adolescent engaged reading with evidence-based policies and strategies.
