Information and Communication Technologies in Education, Research, and Industrial Applications Andreas Bollin, Vadim Ermolayev, Heinrich C. Mayr, Mykola Nikitchenko, Aleksander Spivakovsky, Mykola Tkachuk, Vitaliy Yakovyna, Grygoriy Zholtkevych, 2021-05-21 This book contains revised and extended versions of the best papers presented at the 16th International Conference on Information and Communication Technologies in Education Research and Industrial Applications ICTERI 2020 held in Kherson Ukraine in October 2020 Due to the COVID 19 pandemic the conference was held online The 8 revised full papers included in this volume were carefully reviewed and selected from 347 initial submissions The papers are organized in the following topical sections ICT in education ICT in research and industry

Anatomy Flash Cards, Revised Edition Kurt Albertine, 2008-06-16 This attractive set of Anatomy Flash Cards makes an ideal study aid for medical school students nursing students and health care trainees requiring detailed anatomical knowledge Each card illustrates a human body part labelled with its medical name location in the body and function A total of 265 4 x 6 cards show muscles bones and organs The cards use convenient colour coded thumb tabs to distinguish between ten different body systems with each card illustrating a specific component in the system The front face features the titled illustration with numbered pointers On the reverse each numbered part is matched with its correct name followed by a description of the illustrated body part The cards come boxed with a full colour anatomically accurate poster that shows the human body and its major parts as well as a toggle so cards can be pulled out and studied on the go The poster unfolds to size 11 3 4 x 16 1 2 These cards will serve as an excellent counterpart to The Anatomy Student s Self test Colouring Book

Rohen's Photographic Anatomy Flash Cards Elke Lutjen-drecol, Joel A. Vilensky, 2015 These flash cards were developed with the aim of helping health profession students prepare for a practical exam in a typical medical gross anatomy and or neuroanatomy course The images on these cards are photographs of cadaver dissections The front of each card typically has structures to identify The correct answers are identified on the back of the card including details about important anatomical characteristics of that structure Also material was added that will be useful in preparation for the written component of the gross anatomy exams

Accessibility, Inclusivity and Diversity in Education and Beyond Rachael Door, 2025-03-20 This book provides a unique opportunity to explore the current and future state of accessibility inclusivity and diversity across higher education and beyond Although these chapters primarily focus on the issues and resulting adaptations seen in biomedicine the results and observations are applicable throughout education and the workplace Section 1 focuses on what it means to create accessible environments for both education and employment Here the pitfalls of mandatory attendance across education will be addressed and ideas for building belonging amongst students shared In addition ways to use play based

learning to support student revision and to make psychology accessible to medical students will be discussed Section 2 explores inclusive practices in anatomy education and research with a toolkit for both early career and established academics The pedagogy psychology and culture of asking and answering questions in education will also be explored to support educators aiming to create inclusive learning environments Section 3 focuses on ways in which diversity can be embraced in the educational medical and public sectors Chapters include the use of human remains as teaching aids to promote the concept of the body as a spectrum and the use of television media to create immersive learning environments This book is an essential guide to creating accessible inclusive and diverse learning environments for both the early career and experienced academic
