Anatomy Of The Human Body Picture:

Anatomy of the Medical Image ,2021-09-27 This volume addresses the interdependencies between visual technologies and epistemology with regard to our perception of the medical body It explores the relationships between the imagination the body and concrete forms of visual representations Ranging from the Renaissance paradigm of anatomy to Foucault's birth of the clinic and the institutionalised construction of a medical gaze from visual archives of madness psychiatric art collections the politicisation and economisation of the body to the post human in mass media representations Contributions to this volume investigate medical bodies as historical technological and political constructs constituted where knowledge formation and visual cultures intersect Contributors are Axel Fliethmann Michael Hau Birgit Lang Carolyn Lau Heikki Lempa Stef lenk Joanna Madloch Barry Murnane Jill Redner Claudia Stein Elizabeth Stephens Corinna Wagner and Christiane Weller The Anatomy Museum Elizabeth Hallam,2008 Anatomy museums around the world showcase preserved corpses in service of education and medical advancement but they are little known and have been largely hidden from the public eye Elizabeth Hallam here investigates the anatomy museum and how it reveals the fascination and fears that surround the dead body in Western societies Hallam explores the history of these museums and how they operate in the current cultural environment Their regulated access increasingly clashes with evolving public mores toward the exposed body as demonstrated by the international popularity of the Body Worlds exhibition The book examines such related topics as artistic works that employ the images of dead bodies and the larger ongoing debate over the disposal of corpses Issues such as aesthetics and science organ and body donations and the dead body in Western religion and ritual are also discussed here in fascinating depth The Anatomy Museum unearths a strange and compelling cultural history that investigates the ideas of preservation human rituals of death and the spaces that our bodies occupy in this life and beyond The Low Back and Pelvis Chris J.
