Ouimette, 2005-09-01 *Finding Your Irish Ancestors A Beginner s Guide* is the ultimate resource to help you learn if the luck of the Irish is in your blood or not This easy to use guide will teach you to make use of the many Irish family history records that have become available in recent years Explore the best family history sources in Ireland including birth marriage and death records church records census records and much more *Finding Your Irish Ancestors* will help you discover Internet sites for searching Irish heritage and prepare for a successful family history trip to Ireland Tracing Your Northern Irish Ancestors

Ian Maxwell, 2016-02-29 The second edition of *Tracing Your Northern Irish Ancestors* is an expert introduction for the family historian to the wealth of material available to researchers in archives throughout Northern Ireland Many records like the early twentieth century census returns and school registers will be familiar to researchers but others are often overlooked by all but the most experienced of genealogists An easy to use informative guide to the comprehensive collections available at the Public Record Office of Northern Ireland is a key feature of Ian Maxwells handbook He also takes the reader through the records held in many libraries museums and heritage centres across the province and he provides detailed coverage of records that are available online Unlike the rest of the British Isles which has very extensive civil and census records Irish ancestral research is hampered by the destruction of many of the major collections Yet Ian Maxwell shows how family historians can make good use of church records school registers and land and valuation records to trace their roots to the beginning of the nineteenth century and beyond Researching Your Irish Ancestors at Home and Abroad David R.

Elliott, 2012-05-12 This book will help those who are searching for ancestors in Ireland David R Elliott gives practical advice on preparing for your trip with tips on travel driving accommodation and meals An annotated bibliography and a review of important websites round out this illustrated guide **Tracing Your Irish Ancestors** John Grenham, 2006 This third edition

of *Tracing Your Irish Ancestors* retains the three part structure of earlier editions but updates and improves the material already included while adding new sources which have emerged since publication of the second edition in 1998 The bibliographies an important element of the book are more comprehensive than ever before With the growing use of Internet searches the number of sources has grown dramatically since the last edition John Grenham has a specific chapter on the Internet with detailed references to online transcripts in the source lists This new edition has a 35% increase in content over the previous one A book which has already established itself as the standard reference book for genealogical researchers professional or amateur who are dealing with Irish sources Ireland of the Welcomes The most authoritative book on the subject Cara Books on how to trace your Irish ancestors pour from the presses Here is a really worthwhile one comprehensive clearly laid out and interesting to read Books Ireland *Pre-census Sources for Irish Demography* Brian Gurrin, 2002 This book focuses on how local historians can source and use the various censuses and universal taxation returns and a variety of other sources of the pre census period to build up a population picture of a community or a local area To set the scene a brief history of enumeration in Ireland is outlined and the key population sources are introduced The earliest sources considered in detail are the 1660 poll tax return commonly known as Pender s Census and the hearth tax rolls All known available hearth tax rolls are listed in an appendix The various religious censuses of the eighteenth century are also examined and particular attention is paid to the most well known of these the census of 1766 The use of non census sources such as church and estate record is also considered It is shown that these non census sources can provide much useful information that would not be apparent from census substitutes Problems with working with these sources are outlined and examples of population studies both Irish and non Irish are given Although this book is written with the local historian in mind it will also be of much interest to genealogists and family historians *Family Tree Detective* Colin D. Rogers, 1997 Welcomed worldwide on its first publication this practical and lively guide for the amateur genealogist has now been fully revised and updated The new material includes a section on medieval genealogy which targets the increasing numbers of family historians who have reached back as far as the sixteenth century and wish to go further Heraldry is introduced for the first time There is detail on the location and genealogical content of military records and the records of Poor Law Unions and their workhouses Details are also included of the latest changes to the location and cost of civil registration sources A problem solving manual rather than a simple how to guide The family tree detective explains what to do when the usual methods fail and provides invaluable assistance for those without access to London s vast resources of genealogical information **The 452nd Anti-Aircraft Artillery Battalion** Samuel de Korte, 2025-05-28 The 452nd Antiaircraft Artillery Battalion staffed by Black soldiers protected vital installations and shot down 68 enemy aircraft during WWII During the Second World War the airplane became a true menace Flying faster higher and capable of carrying a heavier payload air forces of the warring nations formed a formidable threat to the forces on the ground To counter this

special anti aircraft artillery battalions were created by the US Army Several of these battalions including the 452nd Antiaircraft Artillery AAA Battalion were staffed by Black American soldiers The 452nd AAA deployed in England in November 1943 and went ashore in Normandy France in June 1944 Assigned to XII Corps part of General Patton s Third Army the 452nd AAA was a valuable asset of the US Army Armed with the deadly 40mm Bofors gun and the 50 cal M45 Quadmount these Black soldiers protected bridges field artillery battalions and other vital installations during the Second World War Some of the white soldiers from the field artillery battalions the 452nd AAA was protecting doubted their abilities but quickly came to appreciate the accuracy and coolness under fire of the Black soldiers Credited with shooting down almost 68 hostile aircraft one of the highest among AAA units in Europe the 452nd AAA has rightfully earned its place in the history of the US Armed Forces during the Second World War Although the battalion s motto was We Guard the Skyways it would perhaps be more appropriate to call them Airplane Destroyers Almost 80 years after the war this outstanding unit s history is finally made public
