

The background of the entire image is a dark, moody illustration. It features a woman's face in the foreground, looking slightly to the left. Her face is covered in a cracked, mask-like texture, with a vertical crack down the center. Behind her, to the right, is a dark silhouette of a man's head and shoulders, looking towards the left. The overall color palette is dark blue and purple.

The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel

has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States **Potteriversity** Kathryn N.
