

A movie poster for 'South of Hope Street'. The background is a dark, green-tinted landscape with jagged, mountain-like silhouettes. In the foreground, four people are standing on a rocky, uneven surface. From left to right: a person with long hair and a beard, wearing a dark jacket and a patterned scarf; a person with blonde hair, wearing a dark coat; a person with dark hair, wearing a dark jacket and a patterned scarf; and a person with dark hair, wearing a dark jacket and a patterned scarf. The title 'SOUTH OF HOPE STREET' is written in large, white, sans-serif capital letters on the right side of the poster. The text is arranged in three lines: 'SOUTH' on the top line, 'OF' on the middle line, and 'HOPE STREET' on the bottom line. The overall mood is mysterious and dramatic.

Time Rift: A completed reluctant hero dystopian sci-fi trilogy Claudia Blood, 2021-03-15 The key to saving the world could be the one thing out of Duff's reach. It's an impossible situation. Time itself is coming apart at the seams and Duff and the Z Crew suspect the key rests with one girl, Horizon. The problem? Horizon is the long-sought-after daughter of their nemesis, Ravenne. She stopped at nothing to retrieve her daughter from the past. Now it's clear: sending Horizon back is the only way to repair the rift, but her mother won't let her go. The underground artifact where they accidentally created the rift is crumbling. No one will survive unless they can escape the mountain falling down around them, but time is shuddering and echoing around them, and the way out isn't clear. To make things worse, thanks to the unpredictability of time rifts, the crew now faces not just one mortal enemy; there are two Ravennes working against them. Will Z Crew escape Ravenne's clutches and set time right again, or will Duff finally have to bend to his enemy's will? Find out in the final installment of the Relic Trilogy.

WHEN THE SLEEPER AWAKES (A Dystopian Sci-Fi Classic) H. G. Wells, 2017-03-05 *When The Sleeper Awakes* is a dystopian science fiction novel about a man who sleeps for two hundred and three years, waking up in a completely transformed London where, because of compound interest on his bank accounts, he has become the richest man in the world. The main character awakes to see his dreams realized and the future revealed to him in all its horrors and malformities. Presented here are the two unabridged editions: original and revised, of this great classic with all of their revisions and additions. H. G. Wells (1866-1946) was an English writer who was prolific in many genres, including the novel, history, politics, social commentary, and textbooks, and rules for war games. Wells is now best remembered for his science fiction novels and is called a father of science fiction, along with Jules Verne and Hugo Gernsback.

Contemporary Dystopian Fiction for Young Adults Balaka Basu, Katherine R. Broad, Carrie Hintz, 2013-05-02 Winner of the Children's Literature Association Edited Book Award. From the jaded, wired teenagers of M. T. Anderson's *Feed* to the spirited young rebels of Suzanne Collins' *The Hunger Games* trilogy, the protagonists of Young Adult dystopias are introducing a new generation of readers to the pleasures and challenges of dystopian imaginings. As the dark universes of YA dystopias continue to flood the market, *Contemporary Dystopian Fiction for Young Adults: Brave New Teenagers* offers a critical evaluation of the literary and political potentials of this widespread publishing phenomenon. With its capacity to frighten and warn, dystopian writing powerfully engages with our pressing global concerns: liberty and self-determination, environmental destruction, and looming catastrophe; questions of identity and justice; and the increasingly fragile boundaries between technology and the self. When directed at young readers, these dystopian warnings are distilled into exciting adventures with gripping plots and accessible messages that may have the potential to motivate a generation on the cusp of adulthood. This collection enacts a lively debate about the goals and efficacy of YA dystopias, with three major areas of contention: do these texts reinscribe an old didacticism, or offer an exciting new frontier in children's literature? Do their political critiques represent conservative or radical

ideologies And finally are these novels high minded attempts to educate the young or simply bids to cash in on a formula for commercial success This collection represents a prismatic and evolving understanding of the genre illuminating its relevance to children s literature and our wider culture

Dystopia and Dispossession in the Hollywood Science Fiction Film, 1979-2017 Harry Warwick,2023-02-15 Offering a survey of Hollywood science fiction cinema from 1979 to 2017 from Ridley Scott s *Alien* to Denis Villeneuve s *Blade Runner 2049* *Dystopia and Dispossession in the Hollywood Science Fiction Film* argues that the trajectory of Hollywood s dystopianism in that period is inextricable from the phenomenon of the new enclosures the new dispossessions and privatisations sweeping across the United States since the 1970s More precisely it contends that the critiques of such dispossessions elaborated before the turn of the century consider the satire of private policing in *RoboCop* 1987 the portrayal of commodified air in *Total Recall* 1990 and the nightmarish extrapolations of postmodern urbanism in *Blade Runner* 1982 and *The Truman Show* 1998 begin to disappear in films such as *The Matrix* 1999 *The Island* 2005 *District 9* 2009 *Repo Men* 2010 and *The Purge* 2013 the further commodification of land forest reservoir ideas even the human genome having diminished the contrast between capitalist and non capitalist spaces on which the earlier critiques depended Bringing close readings of blockbuster films into dialogue with historical and theoretical scholarship on dispossession *Dystopia and Dispossession in the Hollywood Science Fiction Film* proposes a new understanding of the politics of science fiction in particular and utopian thought in general

Female Rebellion in Young Adult Dystopian Fiction Sara K. Day,Miranda A. Green-Barteet,Amy L. Montz,2016-04-15 Responding to the increasingly powerful presence of dystopian literature for young adults this volume focuses on novels featuring a female protagonist who contends with societal and governmental threats at the same time that

she is navigating the treacherous waters of young adulthood The contributors relate the liminal nature of the female protagonist to liminality as a unifying feature of dystopian literature literature for and about young women and cultural expectations of adolescent womanhood Divided into three sections the collection investigates cultural assumptions and expectations of adolescent women considers the various means of resistance and rebellion made available to and explored by female protagonists and examines how the adolescent female protagonist is situated with respect to the groups and environments that surround her In a series of thought provoking essays on a wide range of writers that includes Libba Bray Scott Westerfeld Tahereh Mafi Veronica Roth Marissa Meyer Ally Condie and Suzanne Collins the collection makes a convincing case for how this rebellious figure interrogates the competing constructions of adolescent womanhood in late twentieth and early twenty first century culture

Transhumanist Dreams and Dystopian Nightmares Maxwell J. Mehlman, 2012-10-01 What will happen when technology allows us to direct our own evolution Transhumanists advocate for the development and distribution of technologies that will enhance human intellectual physical and psychological capacities even eliminate aging What if the dystopian futures and transhumanist utopias found in the pages of science journals Margaret Atwood novels films like Gattaca and television shows like Dark Angel are realized What kind of world would humans have created Maxwell J Mehlman considers the promises and perils of using genetic engineering in an effort to direct the future course of human evolution He addresses scientific and ethical issues without choosing sides in the dispute between transhumanists and their challengers However Transhumanist Dreams and Dystopian Nightmares reveals that radical forms of genetic engineering could become a reality much sooner than many people think and that we need to encourage risk management efforts Whether scientists are dubious or optimistic about the prospects for directed evolution they tend to agree on two things First however long it takes to perfect the necessary technology it is inevitable that humans will attempt to control their evolutionary future and second in the process of learning how to direct evolution we are bound to make mistakes Our responsibility is to learn how to balance innovation with caution
