

CHAPTER 1 INTRODUCTION TO ACCOUNTING AND BUSINESS

NET WORTH AND ACCOUNTING

Budgeting – the process of receiving money, planning and allocating it according to one's need

Net Worth – represents wealth and finance which is made up of properties and assets. Financial status measured in wealth or assets owned less liabilities owed.

NET WORTH = ASSETS – LIABILITIES

Profit – the amount of revenue left after deducting the expenses

- It is only profit that will make your net worth grow
- With profit asset will grow and so will net worth

Say for example, you borrow cash of Php50,000.00 – your net worth will not improve. Although your asset will grow, so does your liability. The creditor then will have a **claim over your asset**.

Bookkeeping – first part of the accounting process

1. Tracks down and analyse business activities
2. Measures or calculates and records
3. Prepares a progress report

Financial Analysis – Interpretation of financial reports

BUSINESS AND ACCOUNTING

Accountants – will show how the business activities are shaped into relevant financial reports to provide much needed information so the users can arrive at correct and timely decisions.

- From accounting, you will get the information needed to ensure that the business is in the right direction and is performing profitably.

ACCOUNTING INFORMATION

Accounting provides financial information regarding the business by preparing four financial reports which are called **General Purpose Financial Statements**:

STATEMENT OF FINANCIAL POSITION (Wealth accumulated)

- Formerly called the **balance sheet**
- **Progress report** showing a **list of assets and liabilities** as well as the net value or net worth of the firm which belongs to the owner (**owner's equity**).
- Shows how healthy or robust the enterprise is
- The statement shows balanced **financial structures (A=L+OE)**
- Shows whether the enterprise is: **Solvent** – has enough assets to take care of **all the obligations**
- **Liquid** – ability of the enterprise to pay promptly for obligations that are due (**current liabilities**)
- **Account form** – two column format. Assets are listed in the 1st column while liabilities and owner's equity are listed in the 2nd column
- **Report form** – vertical format. Liabilities and Owner's Equity will be presented/display below the asset
- **As of a specific date**

INCOME STATEMENT (Wealth produced)

- Also called **profit or loss statement** or **statement of earnings**
- **Performance report** of revenues against costs and expenses
- Listing the **revenues earned and expenses incurred** by the business
- **Profit or net income** – results when **revenues exceed expenses**. Profit ensures long life for business and **boosts its financial strength**. It is also the basis for tax, salaries and bonuses.
- **For a specific period of time**

STATEMENT OF CASH FLOWS (Change in cash)

- **Cash report** which shows **what caused the change in the cash account**
- Shows the cash inflows (from investment and sales) and outflows (from purchases of assets and payment of expenses)
- Shows the three kinds of business activities : **financing, investing and operating**
