for Construction Theodoros Dounas,Davide Lombardi,2022-09-20 This book highlights the design use and structure of
blockchain systems and decentralized ledger technologies B DLT for use in the construction industry Construction remains a
fragmented change resistant industry with chronic problems of underproductivity and a very low digitization factor compared
to other fields In parallel the convergence embedding and coordination of digital technologies in the physical world provides
a unique opportunity for the construction industry to leap ahead and adopt fourth industrial revolution technologies Within
this context B DLT are an excellent fit for the digitization of the construction industry B DLT are effective in this as they
organize and align digital and physical supply chains produce stigmergic coordination out of decentralization enable the

,1965-09 **Winning with Past Performance** Jim Hiles,W. Earl Wells,2015-04 Use past performance to win contracts and
deliver results at the lowest risk and cost The federal government has focused on past performance to rank bidders for
almost two decades yet both the collection and use of past performance information remain disjointed siloed and not fully
understood in government or industry Nonetheless contractors livelihoods depend on how the government collects and uses
their past performance information Winning with Past Performance Strategies for Industry and Government aims to enhance
awareness and understanding of past performance processes as well as to promote smart business practices on both the
buyer and seller sides of the equation The authors examine all aspects of past performance including using feedback to
improve performance the government s evolving use of past performance and the future of past performance as an evaluation
tool Winning with Past Performance brings it all together on the subject of past performance and is a ready reference for
