20th Century Boys 19 20th Century Boys 19 Naoki Urasawa:

Graphic Subjects Michael A. Chaney, 2011-03-01 Some of the most noteworthy graphic novels and comic books of recent years have been entirely autobiographical In *Graphic Subjects* Michael A Chaney brings together a lively mix of scholars to examine the use of autobiography within graphic novels including such critically acclaimed examples as Art Spiegelman's *Maus* David Beauchard's *Epileptic* Marjane Satrapi's *Persepolis* Alan Moore's *Watchmen* and Gene Yang's *American Born Chinese* These essays accompanied by visual examples illuminate the new horizons that illustrated autobiographical narrative creates The volume insightfully highlights the ways that graphic novelists and literary cartoonists have incorporated history experience and life stories into their work The result is a challenging and innovative collection that reveals the combined power of autobiography and the graphic novel

Drawing on Tradition Jolyon Baraka Thomas, 2012-09-30 Manga and anime illustrated serial novels and animated films are highly influential Japanese entertainment media that boast tremendous domestic consumption as well as worldwide distribution and an international audience *Drawing on Tradition* examines religious aspects of the culture of manga and anime production and consumption through a methodological synthesis of narrative and visual analysis history and ethnography Rather than merely describing the incidence of religions such as Buddhism or Shinto in these media Jolyon Baraka Thomas shows that authors and audiences create and re create religious frames of mind through their imaginative and ritualized interactions with illustrated worlds Manga and anime therefore not only contribute to familiarity with traditional religious doctrines and imagery but also allow authors directors and audiences to modify and elaborate upon such traditional tropes sometimes creating hitherto unforeseen religious ideas and practices The book takes play seriously by highlighting these recursive relationships between recreation and religion emphasizing throughout the double sense of play as entertainment and play as adulteration i e the whimsical or parodic representation of religious figures doctrines and imagery Building on recent developments in academic studies of manga and anime as well as on recent advances in the study of religion as related to art and film Thomas demonstrates that the specific aesthetic qualities and industrial dispositions of manga and anime invite practices of rendition and reception that can and do influence the ways that religious institutions and lay authors have attempted to captivate new audiences *Drawing on Tradition* will appeal to both the dilettante and the specialist Fans and self professed otaku will find an engaging academic perspective on often overlooked facets of the media and culture of manga and anime while scholars and students of religion will discover a fresh approach to the complicated relationships between religion and visual media religion and quotidian practice and the putative differences between traditional and new religions

Locating Heisei in Japanese Fiction and Film Marc Yamada,2019-10-29 This book provides the first interdisciplinary examination of the popular fiction and film of the lost decades of Japan s Heisei period 1989 2019 Presenting original analysis of major Heisei writers filmmakers and manga

artists the chapters examine the work of Urasawa Naoki Kurosawa Kiyoshi Murakami Haruki and Shinkai Makoto among others Through the work of these cultural figures the book also explores the struggle to define the history of Heisei three decades of economic stagnation social malaise and natural disaster In particular it explores the dissonance between the dominant history of Japan s recent past and the representation of this past in the popular imagination of the period In so doing this book argues that traumatic events from the years leading up to Heisei complicate the narration of a cohesive sense of history for the period requiring works of fiction and film to explore new connections to the past Incorporating literary and film theory to assess the works of culture *Locating Heisei in Japanese Fiction and Film* will be useful to students and scholars of Japanese culture society and history

The Metabolist Imagination William O. Gardner, 2020-04-14 Japan s postwar urban imagination through the Metabolism architecture movement and visionary science fiction authors The devastation of the Second World War gave rise to imaginations both utopian and apocalyptic In Japan a fascinating confluence of architects and science fiction writers took advantage of this space to begin remaking urban design In *The Metabolist Imagination* William O Gardner explores the unique Metabolism movement which allied with science fiction authors to foresee the global cities that would emerge in the postwar era This first comparative study of postwar Japanese architecture and science fiction builds on the resurgence of interest in Metabolist architecture while establishing new directions for exploration Gardner focuses on how these innovators created unique versions of shared concepts including futurity megastructures capsules and cybercities making lasting contributions that resonate with contemporary conversations around cyberpunk climate change anime and more *The Metabolist Imagination* features original documentation of collaborations between giants of postwar Japanese art and architecture such as the landmark 1970 Osaka Expo It also provides the most sustained English language discussion to date of the work of Komatsu Saky considered one of the big three authors of postwar Japanese science fiction These studies are underscored by Gardner s insightful approach treating architecture as a form of speculative fiction while positioning science fiction as an intervention into urban design making it a necessary read for today s visionaries
