White-Collar Government Nicholas Carnes,2024-05-31 Eight of the last twelve presidents were millionaires when they

took office Millionaires have a majority on the Supreme Court and they also make up majorities in Congress where a background in business or law is the norm and the average member has spent less than two percent of his or her adult life in a working class job Why is it that most politicians in America are so much better off than the people who elect them and does the social class divide between citizens and their representatives matter With White Collar Government Nicholas Carnes answers this question with a resounding and disturbing yes Legislators socioeconomic backgrounds he shows have a profound impact on both how they view the issues and the choices they make in office Scant representation from among the working class almost guarantees that the policymaking process will be skewed toward outcomes that favor the upper class It matters that the wealthiest Americans set the tax rates for the wealthy that white collar professionals choose the minimum wage for blue collar workers and that people who have always had health insurance decide whether or not to help those without And while there is no one cause for this crisis of representation Carnes shows that the problem does not stem from a lack of qualified candidates from among the working class The solution he argues must involve a variety of changes from the equalization of campaign funding to a shift in the types of candidates the parties support If we want a government for the people we have to start working toward a government that is truly by the people White Collar Government challenges long held notions about the causes of political inequality in the United States and speaks to enduring questions about representation and political accountability *The Crisis* ,2002-09 The Crisis founded by W E B Du Bois as the official publication of the NAACP is a journal of civil rights history politics and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color For nearly 100 years The Crisis has been the magazine of opinion and thought leaders decision makers peacemakers and justice seekers It has chronicled informed educated entertained and in many instances set the economic political and social agenda for our nation and its multi ethnic citizens **Housing and Urban-Rural Recovery Act of 1982** United States.
