**Multimedia Reporting** Richard Scott Dunham, 2019-08-02 This is the first book to apply multimedia tools to economic and business storytelling. By examining the journalism essentials as well as the advanced multimedia skills it helps readers use the latest technological tools to integrate multimedia elements into traditional news coverage. It also explains how to tell stories solely through multimedia elements. The new language of online journalism includes writing for digital platforms, writing blogs, and writing for social media and involves a wide range of multimedia skills like video, audio, photography, graphics, data visualization, and animation. Multimedia journalism allows a two-way communication with the audience that was not possible in traditional legacy media, and this textbook is replete with links to useful tutorials, examples of award-winning multimedia stories, and advanced digital resources offering journalists a road map to the brave new world of digital reporting and editing.

**House of Commons - Home Affairs Committee: E-Crime - HC 70** Great Britain. Parliament. House of Commons. Home Affairs Committee, 2013 The threat of a cyber attack to the UK is so serious it is marked as a higher threat than a nuclear attack. One can steal more on the internet than they can by robbing a bank, and online criminals in 25 countries have chosen the UK as their number one target. Astonishingly, some are operating from EU countries. If we don't have a 21st century response to this 21st century crime, we will be letting those involved in these gangs off the hook. After a 10-month inquiry, the Committee concluded that a dedicated state-of-the-art espionage response team should be established so that attacks can be immediately reported. Banks must be required to report all e-crime fraud to law enforcement; it is alarmed that CEOP is having its budget cut by 10% over 4 years; its experienced Chief Executive is leaving, and it could lose its laser-like focus when merged with the National Crime Agency; it is still too easy for people to access inappropriate online content, and those responsible need to take stronger action to remove such content; the Government should draw up a mandatory code of conduct with them to remove material which breaches acceptable standards; the DPP should review sentencing guidance and ensure e-criminals receive the same sentences as if they had stolen the same amount of money or data offline; the Government should look at setting up a similar organisation to the Internet Watch Foundation focused on reporting and removing online terrorist content.
