detailed information is needed Always remember that you are responsible for your own safety and that of others when  
working on a vehicle Take particular care with safety related systems like the brakes and steering and seek professional  
advice if in any doubt Never work under a vehicle unless it is properly supported a single jack is not enough Take care with  
power tools also regard as potentially harmful fuel lubricants solvents and sealers which should always be and kept in  
labelled sealed containers With care and common sense the practical owner can make an excellent job of maintenance and  
overhaul The benefits include money saved and the satisfaction of work well done You will be adding to your knowledge too
