Angel In The Badlands:

Ophelia's Winter Sarah Ann Hill, 2000-09-07 After an owner's death many companion animals are abandoned or forgotten. They are given to friends or relatives of the deceased who may or may not want to care for them. More often they are surrendered to an animal shelter. Every person who owns a pet should be concerned with what will happen to them when we die. This is a growing problem that needs to be addressed in one's lifetime. Ophelia G McMahon was an American Brown Tabby cat who was adopted from the Clearwater Florida Animal Shelter. During the Big Snowstorm of 1993 she became an orphan and ended up in an abusive home. The first time I saw Ophelia she had been confined in a small bedroom for several months sharing her home with a ball python. Cowering in a chair beneath a table she looked up at me with her sad green eyes as if to say Help me please. There was no way I could leave without her. A growing area of law today in estate planning for pets is the care of one's pet upon the owner's death or incapacity. People are always concerned with passing on wealth to children or other relatives with as little consequences as possible but what about taking care of a pet? If you die and your pet survives you the issue is not going to be just leaving enough money for the pet to be cared for in the long run. Who is going to take care of your pet today and tomorrow? Back in 1946 humorist H Allen Smith wrote the fictional tale of a cat named Rhubarb who inherited all his owner's wealth and a baseball team. His story contained more truth than fiction. Benny Betty and Rambo's owner left a will so detailed that it included instructions for the disposition of her Seiko watch. What about her beloved pets? Philanthropist Jenny Smith's pets ended up in the very animal shelter she'd established. A trust fund for Most recently JFK Jr's dog Friday and cat Ruby weren't even mentioned in his Last Will and Testament. From the creative and highly imaginative author Joseph Lima Sconce comes a highly engaging and deeply meaningful volume that believes that death should not be feared. Instead it is something to be celebrated for. The Travelers deems that death is the gateway to another world. It is the transition to real substantial eternal and wondrous afterlife. It tries to show to readers that death does not exist. When one dies he goes to an afterlife but soon the reward will become immensely more worthwhile and joyful if one chooses to go to heaven. This book reveals that the afterlife is real and substantial and that all of humans when they arrive there at some point will soon realize this. Their spiritual bodies are very much like natural bodies except that the spiritual bodies are in perfect shape in addition to basic telepathy and the speaking of a universal language. People in the spiritual world live in real places beautiful cities or country location in Heaven noisome slums in hell. People there work like on earth willingly and happily in heaven not so in hell and also enjoy time off from work which are marvelous in heaven and within strict limits somewhat enjoyable in hell. They are full human beings in the afterlife in every aspect. But in the spiritual world time and space function differently being fluid and connected to a person's thoughts and emotions that deception and lying are nearly impossible and the economy is a moneyless one. **Albuquerque District Resource(s)**
