Reformers more and more Keble could add in 1838 Anything which separates the present Church from the Reformers I should hail as a great good Protestants within the Church of England therefore felt the urgent need to make available in an attractive and accessible form the works of the leaders of the English Reformation To many it seemed that the Protestant foundations of the English Church were being challenged like never before Thus the society represented a co operation between traditional High Churchmen and evangelical churchmen both of whom were committed to the Reformation teaching on justification by faith Subscribers were also involved in the erection of the Martyrs Memorial in Oxford although this was as much anti Roman Catholic as anti Tractarian The society had about seven thousand subscribers who paid one pound each year from 1841 to 1855 thus for fifteen pounds the subscribers received fifty three volumes the General Index and the Latin originals of the 1847 Original Letters relative to the English Reformation being special subscriptions Twenty four editors were used and the task of arriving at the best text was far from easy The choice of publications was controversial and some authors and works were unfortunate not to be included in PS volumes While some of the volumes have been superseded by more recent critical editions today this collection remains one of the most valuable sources for the study of the English Reformation
