Ann Arbor Cable Tv Guide:

TV Guide ,2007 **The Annual Ann Arbor Guide** ,2005 Living in Ann Arbor ,1994 **Weather on the Air**

Robert Henson,2013-01-05 From low humor to high drama TV weather reporting has encompassed an enormous range of styles and approaches triggering chuckles infuriating the masses and at times even saving lives In Weather on the Air meteorologist and science journalist Robert Henson covers it all the people technology science and show business that combine to deliver the weather to the public each day Featuring the long term drive to professionalize weathercasting the complex relations between government and private forecasters and the effects of climate change science and the Internet on today s broadcasts With dozens of photos and anecdotes illuminating the many forces that have shaped weather broadcasts over the years this engaging study will be an invaluable tool for students of broadcast meteorology and mass communication and an entertaining read for anyone fascinated by the public face of weather **Television & Cable Factbook** ,2006

FCC Record United States. Federal Communications Commission,1999 Struggles for Equal Voice Yuya

Kiuchi,2012-10-15 While previous scholarship on African Americans and the media has largely focused on issues such as stereotypes and program content Struggles for Equal Voice reveals how African Americans have utilized access to cable television production and viewership as a significant step toward achieving empowerment during the post Civil Rights and Black Power era In this pioneering study of two metropolitan districts Boston and Detroit Yuya Kiuchi paints a rich and fascinating historical account of African Americans working with municipal offices local politicians cable service providers and other interested parties to realize fair African American representation and media ownership Their success provides a useful lesson of community organizing image production education and grassroots political action that remains relevant and applicable even today **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1975

From Networks to Netflix Derek Johnson,2022-07-26 Now in a second edition this textbook surveys the channels platforms and programming through which television distribution operates with a diverse selection of contributors providing thorough explorations of global media industries in flux Even as legacy media industries experience significant disruption in the face of streaming and online delivery the power of the television channel persists Far from disappearing television channels have multiplied and adapted to meet the needs of old and new industry players alike Television viewers now navigate complex choices among broadcast cable and streaming services across a host of different devices From Networks to Netflix guides students instructors and scholars through that complex and transformed channel landscape to reveal how these industry changes unfold and why they matter This second edition features new players like Disney HBO Max Crunchyroll Hotstar and more increasing attention to TV services across the world An ideal resource for students and scholars of media criticism media theory and media industries this book continues to offer a concrete tangible way to grasp the foundations of television and television studies even as they continue to be rewritten The Politics of Serial Television

Fiction Sebastian Naumann, 2025-02-08 Fictional TV politics played a pivotal role in the popular imaginaries of the 2010s across cultures Examining this curious phenomenon Sebastian Naumann provides a wide ranging analysis of the rapidly evolving landscape of contemporary polit series Proposing a novel structural model of serial television he offers an innovative methodological framework for comparative textual analysis that integrates sociocultural economic sociotechnical narratological and aesthetic perspectives This study furthermore explores how the changing affordances of nonlinear television impact serial storytelling and identifies key narrative trends and recurring themes in contemporary TV polit fiction

The V-chip Debate Monroe E. Price, 2013-11-26 The V chip is a highly significant part of the discussion about whether television or broadcasting in general deserves some special attention in terms of its accessibility to children its particular power to affect conduct and its invasiveness But as this notion of filtering and labeling has caught the imagination of the regulator the legislator and all those who wish to consider new ways to alter bargaining over imagery in society the very idea of the V chip or its equivalent is moving across other technologies including the Internet The V chip issue has also fueled the ongoing debate about violence and sexual practices in society and how representations on television relate to those practices Although the initial concept of the V chip is simple its flow into the public realm raises so many extraordinary questions that the introduction and production of the chip virtually serves as a case study in problems of law and public policy The very conceptualization of speech in society is being affected by this issue Accordingly the place of the V chip in this debate is increasingly important indeed it may be argued that the V chip s contribution to legal argumentation may be greater than its ultimate contribution to the relationship between children and imagery Among the questions the contributors address are What research basis is necessary to require a framework for labeling and rating What relationship between government and the image producing industries can be characterized for constitutional and other reasons as voluntary as opposed to coercive Who should evaluate these images To what extent should the evaluation process be centralized and or distributed What assessment is appropriate to evaluate whether the experiment is successful In addition to the V chip s origin s in Canada and its further evolution in the United States this book discusses the development of the V chip and television rating systems in Europe Australia and throughout the world It also includes essays which contrast the very different approaches in Canada and the United States in terms of the role of regulatory agency industry and government Firesign Jeremy Braddock, 2024-10-29 A cultural clearinghouse of the American 1960s and 70s told through the story of the period s most important forgotten comedy group This expansive book reclaims the Firesign Theatre hazily remembered as a comedy act for stoners as critically engaged artists working in the heart of the culture industry at a time of massive social and technological change At the intersection of popular music sound and media studies cultural history and avant garde literature Jeremy

Braddock explores how this inventive group made the lowbrow comedy album a medium for registering the contradictions and collapse of the counterculture and traces their legacies in hip hop turntablism computer hacking and participatory fan culture He deploys a vast range of material sources drawing on numerous interviews and writing in tune with the group's obsessive and ludic reflections on multitrack recording radio television cinema early artificial intelligence and more to focus on Firesign's work in Los Angeles from 1967 to 1975 This ebullient act of media archaeology reveals Firesign Theatre as authors of a comic utopian pessimism that will inspire twenty first century recording arts and urge us to engage the massive technological changes of our own era Pimpin' Ain't Easy Beretta E. Smith-Shomade, 2012-08-21 Launched in 1980 cable network Black Entertainment Television BET has helped make blackness visible and profitable at levels never seen prior in the TV industry In 2000 BET was sold by founder Robert L Johnson a former cable lobbyist to media giant Viacom for 2.33 billion dollars This book explores the legacy of BET what the network has provided to the larger US television economy and more specifically to its target African American demographic The book examines whether the company has fulfilled its stated goals and implied obligation to African American communities Has it changed the way African Americans see themselves and the way others see them Does the financial success of the network secured in large part via the proliferation of images deemed offensive and problematic by many black communities come at the expense of its African American audience This book fills a major gap in black television scholarship and should find a sizeable audience in both media studies and African American studies *Benn's Press Directory*, 1982 **Broadcasting & Cable**, 2007-10 *Cablefile*, 1986
