one possible reaction to this tension As old style industrial policy and interventionism gained a bad reputation governments had to become creative to assure traditional economic policy objectives with new means However economic patriotism is more than just a fashionable word or a fig leaf for protectionism This volume employs the term to signal two distinctions the diversity of policy content and the multiplicity of territorial units it can refer to Comparing economic interventionism across countries and sectors it becomes clear that economic liberalism will always be accompanied by counter movements that appeal to territorial images This book was published as a special issue of the Journal of European Public Policy 1997 : L'année stratégique Institut de relations internationales et stratégiques,1997-01-01T00:00:00+01:00 Ouvrage de référence L'année stratégique accueille comme chaque année les contributions des meilleurs spécialistes réunis sous la direction de Pascal Boniface Ils présentent une analyse complète de la situation mondiale clarent tous les grands enjeux du moment et mettent en évidence l'impact par l'impact les évolutions géostratégiques présentes et venir L'année stratégique 1997 s'enrichit de nouvelles annexes statistiques qui au-delà des traditionnelles mais indispensables données militaires s'élargissent la démographie et l'économie Sous forme de fiches pays et de classements des pays elles offrent au lecteur les informations les plus récentes et les plus pertinentes pour valuer les facteurs de puissance de chaque état de la planète **The Economics of the Global**
