Mathisen, Danuta Shanzer, 2016-04-08 One of the most significant transformations of the Roman world in Late Antiquity was the integration of barbarian peoples into the social cultural religious and political milieu of the Mediterranean world The nature of these transformations was considered at the sixth biennial Shifting Frontiers in Late Antiquity Conference at the University of Illinois at Urbana Champaign in March of 2005 and this volume presents an updated selection of the papers given on that occasion complemented with a few others These 25 studies do much to break down old stereotypes about the cultural and social segregation of Roman and barbarian populations and demonstrate that contrary to the past orthodoxy Romans and barbarians interacted in a multitude of ways and it was not just barbarians who experienced ethnogenesis or cultural assimilation The same Romans who disparaged barbarian behavior also adopted aspects of it in their everyday lives providing graphic examples of the ambiguity and negotiation that characterized the integration of Romans and barbarians a process that altered the concepts of identity of both populations The resultant late antique polyethnic cultural world with cultural frontiers between Romans and barbarians that became increasingly permeable in both directions does much to help explain how the barbarian settlement of the west was accomplished with much less disruption than there might have been and how barbarian populations were integrated seamlessly into the old Roman world **The Rise and Fall of the Byzantine Empire** Monique Vescia, 2016-07-15 Growing on the heels of the collapse of the Roman Empire the Byzantine Empire was in some ways a continuation of its predecessor extending its history for another 1 000 years With a new capital at Constantinople however it also had a distinctly Eastern character of its own Readers are transported to Byzantium in this absorbing volume which recounts the history of this brilliant and articulate civilization as well as the many cultural and architectural achievements it spawned before falling to the Ottomans in 1453 Seminal events are covered in depth in the text and also highlighted in a timeline *Ancient Catastrophes and Forgotten Civilizations* Learn Alchemical, 2025-08-28 *Ancient Catastrophes and Forgotten Civilizations* takes readers on a gripping journey into humanity's deepest past where myth and science converge to reveal a world shaped

by fire flood and upheaval For centuries legends of deluges fiery skies and vanishing lands were dismissed as fantasy Yet modern geology archaeology and climatology now confirm what ancient storytellers preserved Earth has always been a restless planet and civilizations have risen and fallen under its violent hand From the cataclysmic eruption of Toba to the collapse of Santorini s volcano that may echo in the tale of Atlantis from the Younger Dryas impact hypothesis to the drowning of Doggerland and the Black Sea flood this book uncovers the scientific truths hidden in myths across cultures Aboriginal Dreamtime Norse Ragnarok and Native American flood stories are revealed as not just allegories but memory archives living records of events that reshaped landscapes and societies Blending mythological analysis with cutting edge science Ancient Catastrophes and Forgotten Civilizations reframes humanity s oldest stories as survival manuals from the past It is a chronicle of disasters that forged resilience innovation and cultural memory and a timely reminder that the forces which shaped our ancestors still surround us today

Understanding Leadership Robert M McManus, Gamaliel Perruci, 2015-04-10 Lao Tzu Marx the Buddha Ibsen Machiavelli these are just a few of the world s great thinkers who have weighed in on the subject of leadership over the centuries Yet the contemporary student of leadership often overlooks many of these names in favour of more recent theorists hailing from the social sciences Understanding Leadership An Arts and Humanities Perspective takes a different angle employing the works of the great philosophers authors and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership The authors build their conceptual framework using The Five Components of Leadership Model which recognizes the leader the followers the goal the environmental context and the cultural values and norms that make up the leadership process Supporting the text are a wealth of case studies which reflect on works such as Ayn Rand s novella Anthem Eug ne Delacroix s painting Liberty Leading the People Charlie Chaplin s film Modern Times Athol Fugard s play Master Harold and the Boys Lao Tzu s poetic work Tao Te Ching and Anton n Dvo k s New World Symphony The authors also introduce studies from various world cultures to particularly illustrate the role cultural values and norms play in leadership This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world Understanding Leadership An Arts and Humanities Perspective will be a valuable textbook for both undergraduate and postgraduate leadership students while leadership professionals will also appreciate the book s unique liberal arts and cultural approach

A Concise History of Western Civilization: From Prehistoric to Early Modern Times: Third Edition Gary Forsythe, 2020-08-03 A Concise History of Western Civilization From Prehistoric to Early Modern Times Third Edition By Gary Forsythe This volume is designed to serve as the textbook for an undergraduate college course that surveys the history of Western Civilization up to the Early Modern Period It differs from most Western Civilization books in that it places more emphasis on the ancient world and less on the Middle Ages It treats the ancient Near Eastern civilizations with a view to understanding the historical context of ancient Judaism and the Hebrew Bible and it also stresses the political thought and

institutions of the ancient Greeks and Romans which have been so important in shaping the political institutions of many modern nations worldwide The text is a straightforward textbook of basic historical information and represents the content of the author's class lectures in his course on Western Civilization

Prehistoric Europe Timothy Champion, 2016-06-16 The study of European prehistory has been revolutionized in recent years by the rapid growth rate of archeological discovery advances in dating methods and the application of scientific techniques to archaeological material and new archaeological aims and frameworks of interpretation Whereas previous work concentrated on the recovery and description of material remains the main focus is now on the reconstruction of prehistoric societies and the explanation of their development This volume provides that elementary and comprehensive synthesis of the new discoveries and the new interpretations of European prehistory After an introductory chapter on the geographical setting and the development of prehistoric studies in Europe the text is divided chronologically into nine chapters Each one describes with numerous maps plans and drawings the relevant archaeological data and proceeds to a discussion of the societies they represent Particular attention is paid to the major themes of recent prehistoric research especially subsistence economy trade settlement technology and social organization

Empires of Antiquities Billie Melman, 2020 Empires of Antiquities is a history of the rediscovery of the imperial civilizations of the ancient Near East in a modern imperial order that evolved between the outbreak of the First World War and the decolonization of the British Empire in the 1950s It explores the ways in which near eastern antiquity was redefined and experienced becoming the subject of imperial regulation modes of enquiry and international and national politics Billie Melman follows a series of globally publicized spectacular archaeological discoveries in Iraq Egypt and Palestine which made antiquity material visible and accessible as never before She demonstrates that the new definition and uses of antiquity and their relations to modernity were inseparable from the emergence of the post war international imperial order transnational collaboration and crises the aspirations of national groups and collisions between them and the British mandates This study uniquely combines a history of the internationalization of archaeology and the rise of a new regime of antiquities under the oversight of the League of Nations and its institutions a history of British attitudes to and passion for near eastern antiquity and on the ground colonial policies and mechanisms as well as nationalist claims on the past It points at the centrality of the new mandate system Drawing on an unusually wide range of materials collected in archives in six countries as well as on material and visual evidence this volume weaves together imperial international and national histories and the history of archaeological discovery which it connects to imperial modernity

The Eternal Present, Volume II Sigfried Giedion, 2023-10-17 An original account of ancient Egyptian and Sumerian architecture from the acclaimed architectural historian In The Beginnings of Architecture Sigfried Giedion examines the architecture of ancient Egypt and Sumer These early builders expressed an attitude of immense force when they confronted their structures with open sky Giedion argues that it was during these periods that the problem of constancy and change flared up with an intensity

unknown in any other period of history and resolved eventually into the first architectural space conception the automatic psychic recording of the visual environment *Nomads of the Mediterranean: Trade and Contact in the Bronze and Iron Ages* Ayelet Gilboa, Assaf Yasur-Landau, 2020-09-07 Three millennia of cross Mediterranean bonds are revealed by the 18 expert summaries in this book from the dawn of the Bronze Age to the budding of Hellenization An international team of acclaimed specialists in their fields archaeologists historians geomorphologists and metallurgists shed light on a plethora of aspects associated with travelling this age old sea and its periphery environmental factors the formation of harbors gateways commodities the crucial role of metals cultural impact and the way to interpret the agents such as Canaanites Sea Peoples Phoenicians and pirates The book will engage any student of the Old World in the 3000 years before the Common Era
