Science and Art ,1859 *Meteorological Disasters in Medieval Britain (AD 1000–1500)* Peter J. Brown,2023-08-21 When
high magnitude meteorological hazards impact vulnerable human populations disasters are the inevitable consequence
Through archaeological and historical evidence this book investigates how these sudden and unpredictable events affected
British medieval populations AD 1000 1500 Medieval society understood disasters in a practical sense and took steps to
minimise risk by constructing flood defences and reinforcing structures damaged by storms At the same time natural hazards
were widely interpreted through a framework of religious and superstitious beliefs and a wide variety of measures were
followed to secure protection against the dangers of the natural world Disasters therefore were interpreted through a duality
of understanding in which their occurrence could be the result of spiritual or superstitious triggers but practical solutions
were a key component in mitigating their tangible impacts In evaluating this duality this book focuses on specific case
studies and considers both their diverse historical contexts as well as their consequences for society against the backdrop of
significant demographic and climatic change as a result of the Black Death and the transition to the Little Ice Age **Kelly's**

Shropshire Gareth Williams,2021 A gazetteer of the many fine Shropshire country houses which covers the architecture the
owners family history and the social and economic circumstances that affected them Shropshire is the largest English inland
county and has a wide variety of important landed country houses with owners from diverse social groups with links to trade
in Liverpool Manchester and London as well as the local gentry This book is not simply about the houses they built but also
about the people who lived in them and the context in which the houses are set The architecture is of course fully covered
What is distinctive about the author s approach is that he treats the histories of the families their artistic tastes and their
estates as an integral part of the character of each house Country houses can serve as a barometer of national tastes and of
the social and economic times in which they were built The work includes reference to the important sporting associations
fine and decorative art collections and to important guests and social networks Unlike most architectural guides this aims at
a wider readership and will be an important resource for social historians genealogists and local historians The Country
