Borer,2020-03-02 Anarcho capitalism is the most exciting social philosophy of modern times But how does it work This book illuminates the ethical system at the heart of anarcho capitalism It builds the non aggression principle from praxeological foundations and develops

techniques for applying it to real world conflicts It explores the edges of libertarianism to show where it shines and where it fails This is an excellent book on anarcho capitalism It covers all the bases and then some This is an enjoyable read an easy read and at the end of the road lies real insight Five stars Walter Block author of *Defending the Undefendable* I was dreading reading this but it is conceptually excellent Michael Malice author of *The New Right* This book uses praxeology to define libertarianism based on the non aggression principle Ancaps may find the implications disconcerting or illuminating Stephan Kinsella author of *Against Intellectual Property* For those who enjoy going deep into libertarian theory the thought experiments and strategies in this book will prove valuable Jakub Bozydar Wisniewski author of *Libertarian Quandaries*
