Islamism, Populism, and Turkish Foreign Policy Burak Bilgehan Özpek, Bill Park, 2020-05-21 This comprehensive

volume analyses the phenomena of populism and Islamism in Turkey under Justice and Development Party JDP rule since 2002 and its impact on the country's foreign policy. The authors seek to identify the meanings of populism and Islamism in the Turkish context and their relationship to democracy there, exploring the extent to which they may explain the apparent rise of authoritarianism and illiberalism under the JDP and especially under President Recep Tayyip Erdogan and address the tensions between Turkey's western and Muslim discourses and the politicization of history in the new Turkey. They examine the implications of these developments for Turkey's EU accession prospects and its western alliances, explore the impact they have had on the country's approach to the Arab Spring and consider their relationship to Turkey's status as an emerging economy in an economically globalizing context. The volume also debates whether Turkish populism is unique to that country or reflects a growing trend in world politics including in the west. This book will be of great interest to students and researchers of political science and international relations, especially those with a focus on Turkey. It was originally published as a special issue of the journal *Turkish Studies*. *A Primer on Corporate Governance* Sibel Yamak, Bengi

External and internal mechanisms of corporate governance are built on this background. Internal control mechanisms analyzed in this book include the characteristics of the board of directors, ownership structure and management teams of Turkish companies. In conclusion, the authors discuss current and future corporate governance challenges in the Turkish business context. *Country Report*, 1986 *World Situation with Regard to Drug Trafficking* United Nations.
